

Masyarakat **P**enanggulangan **B**encana **I**ndonesia (MPBI), Indonesian Society for Disaster Management, established on 03.03.03 is a non-profit organisation envisioned to be an association of disaster management (DM) practitioners, scientists, and enthusiasts from government, international / national organizations and other DM entities in Indonesia.

As an association and a network of DM organizations MPBI delves more at the upper stream of conceptual, policies, strategies and capacity building rather than frontline implementation in the field.

MPBI is a member of the Asian Disaster Reduction and Response Network/ADRRN

MPBI Vision: an Indonesian society attaining their well being through, *inter alia*, effective management of disaster risks

MPBI Mission: acting as critical partner to all DM practitioners, MPBI promote an implementation of professional DM which practices are in harmony with the concepts and is based on ethical considerations

- MPBI Purposes:**
- To support the attainment of a well off Indonesian society through disaster risk reduction
 - To be a critical partner to various proponents towards a professional DM
 - To promote DM practices and to participate in the DM problem solving

- MPBI Programmes:**
- Program 1 Education, research and implementation
 - Program 2 Problem solving
 - Program 3 Communication and cooperation
 - Program 4 Public information
 - Program 5 Organisational strengthening

MPBI Activities:

Communication and collaborations:

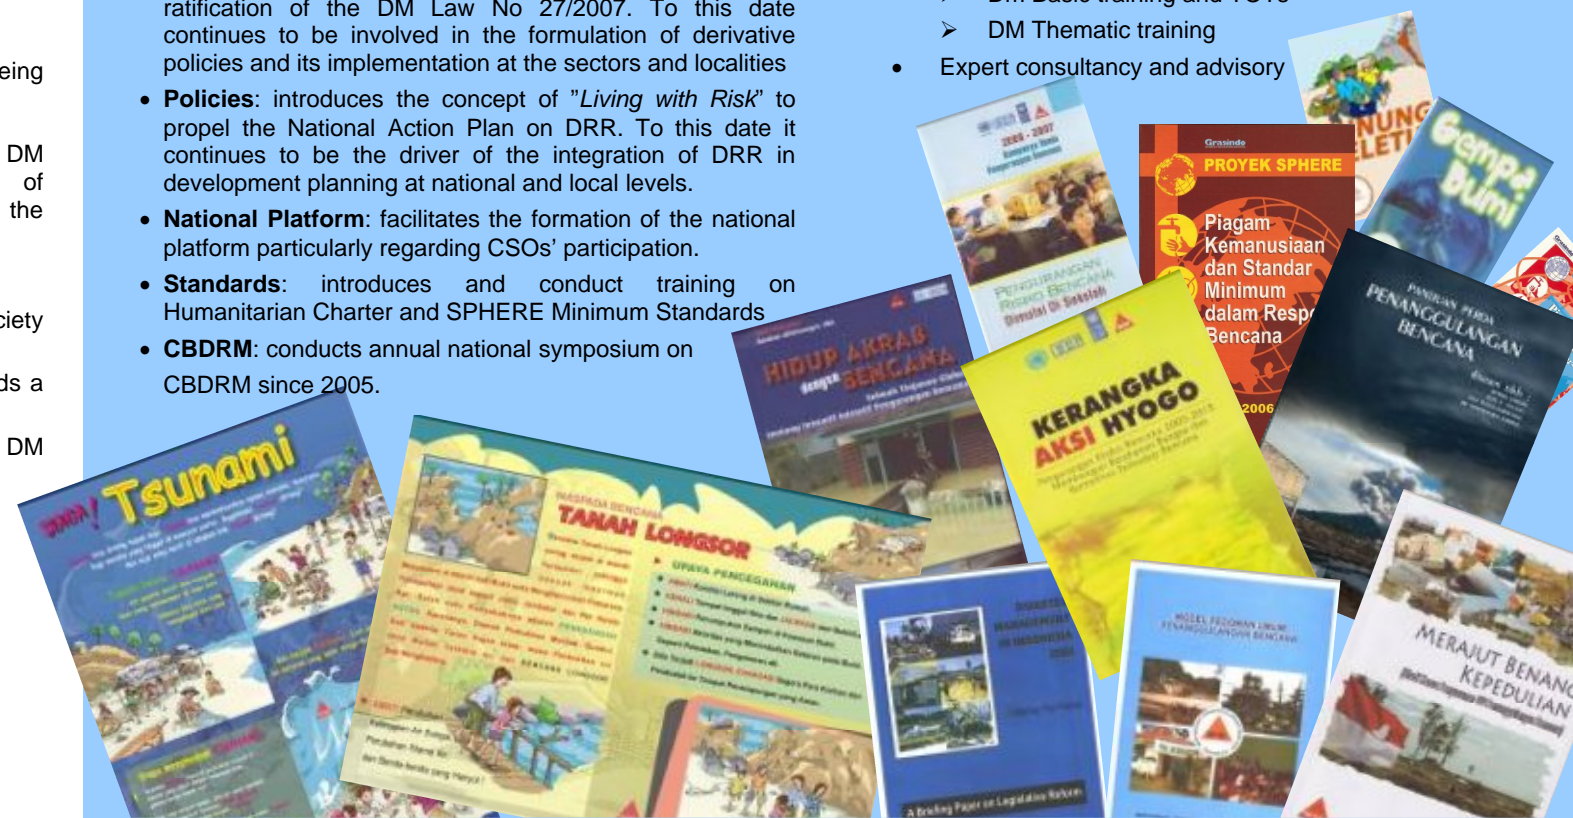

- **Regional collaboration:** links DM practices in Indonesia with South East Asian initiatives including in Community-Based Disaster Risk Reduction (CBDRR), policy reforms, and the promotion of humanitarian standards
- **Information centre:** establishes an information centre for certain disasters e.g. the Merapi volcanic eruption and Yogyakarta earthquake
- **Interagency cooperation:** implements various DM projects with international organisations including OXFAM GB, Care International Indonesia, UN-OCHA, UNDP, IFRC, UNESCO, UNICEF, HIVOS, USAID, CORDAID, World Vision Indonesia, Save the Children, AusAID, etc.
- **Experience exchange:** conducts thematic public events regarding various DM aspects and themes

DM Practice Development

- **Legislation:** mobilises the CSOs to promote the academic concept of the DM legislation to the parliament and the government, monitors its deliberations and negotiations as well as provides technical references leading to the ratification of the DM Law No 27/2007. To this date continues to be involved in the formulation of derivative policies and its implementation at the sectors and localities
- **Policies:** introduces the concept of "Living with Risk" to propel the National Action Plan on DRR. To this date it continues to be the driver of the integration of DRR in development planning at national and local levels.
- **National Platform:** facilitates the formation of the national platform particularly regarding CSOs' participation.
- **Standards:** introduces and conduct training on Humanitarian Charter and SPHERE Minimum Standards
- **CBDRM:** conducts annual national symposium on CBDRM since 2005.

Awareness raising and capacity development

- Hosts national events in conjunction of the International Disaster Risk Reduction Days since 2003
