**GFDRR**  
Global Facility for Disaster Reduction and Recovery

# What are the expected impacts of disasters on healthcare infrastructure?

Direct loss of  
life, injury, and  
disease

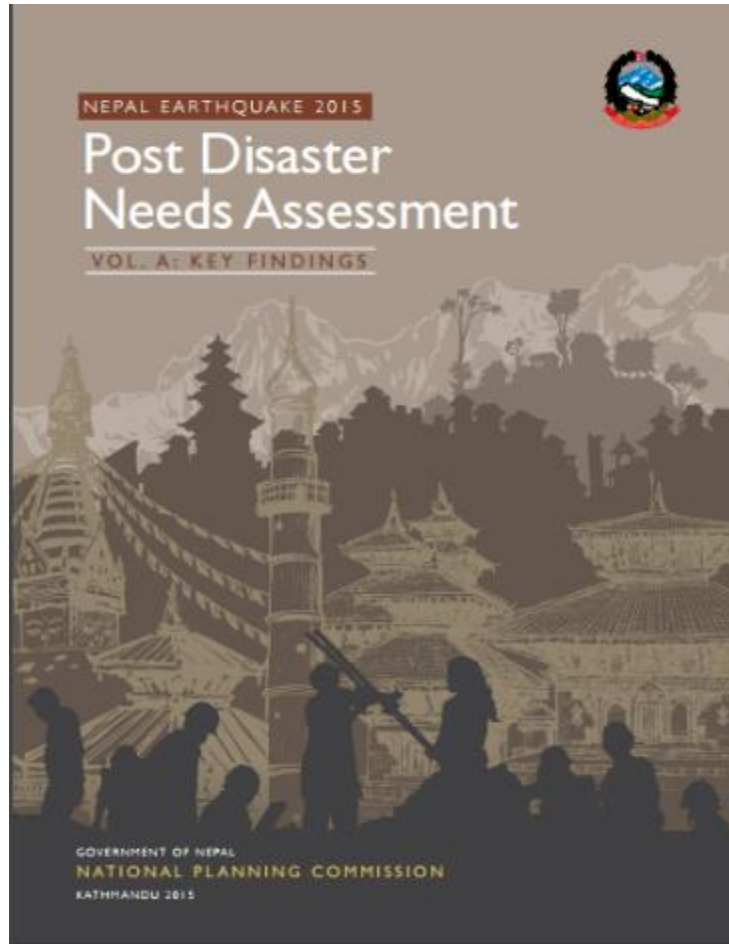

Damage to  
healthcare  
facilities

Disruption to  
service delivery

Disruption of  
water and other  
needed supplies

Damage to safe  
shelter

# A Sense of the Challenge: 2015 Nepal Earthquake

In the Nepal  
2015  
Earthquake,  
more than **450**  
**health facilities**  
**were fully**  
**destroyed.**  
The needs were  
estimated at  
**US\$147 million.**

Source: PDNA, Government of Nepal

# Damage in Practice: Example from Flooding in India

Damage to Facilities leads to Operational Disruptions

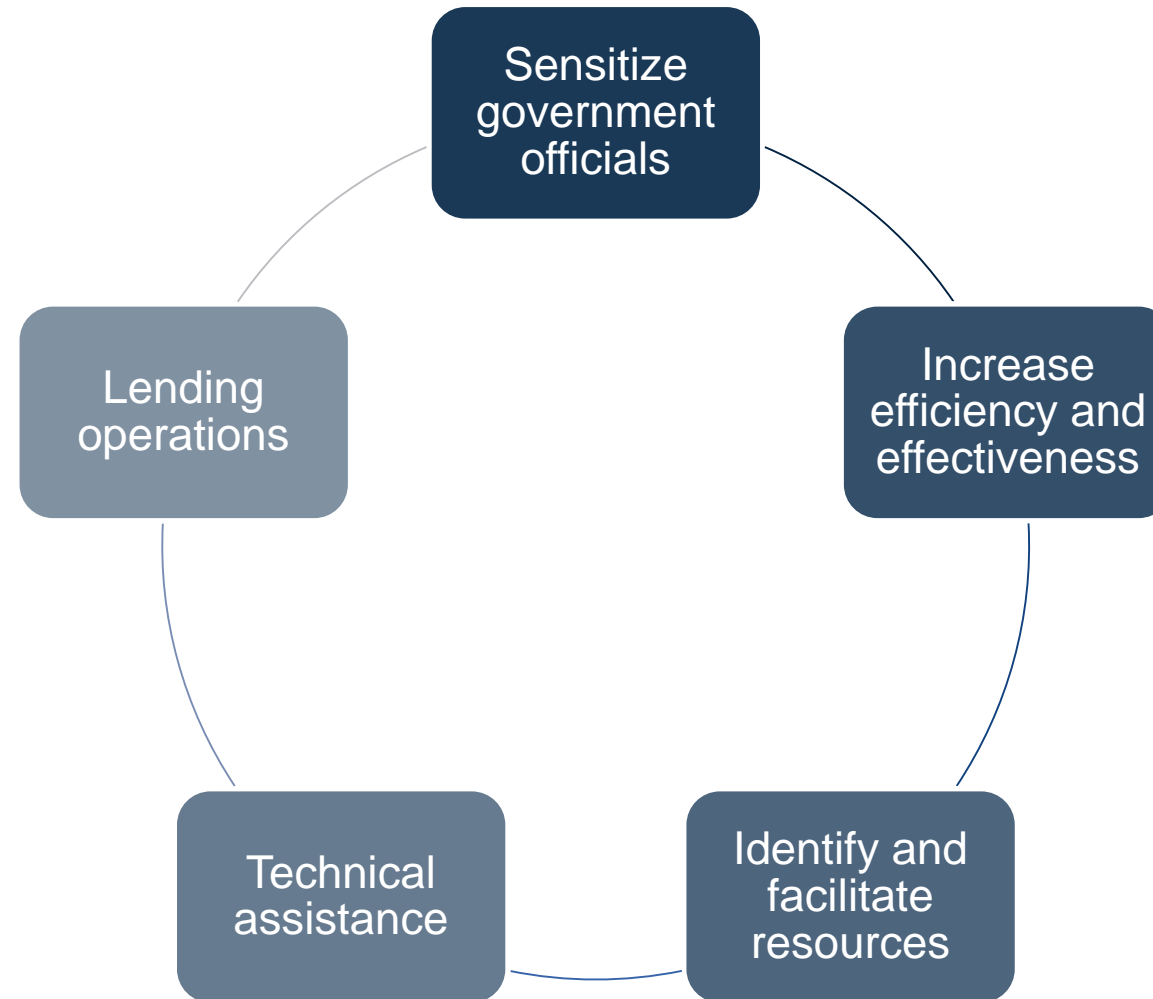

What are the Health-Specific Service Delivery Challenges?

How do we think about Health Facilities in the Broader Context of Disaster Risk?

# What can development partners do to support health sector recovery?

# Some initial thoughts and findings

- “Make safe, repair, provide, and plan”
  - Assess key damages
  - Address immediate issues
  - Identify key stakeholders and political – institutional arrangements
- Draft recovery plan and M&E framework
- Communicate interim options to people
- Confirm funding needs and allocation

## Immediate recovery phase

## Short-term recovery phase

- Begin to rebuild, replace, and reconstruct
  - Key planning decisions
  - Engage residents
  - Establish new health support and service delivery models
  - Delivery early health sector recovery plan
  - Strengthen efficiency and effectiveness

- Complete rebuild, restore, and improve
  - Major construction projects underway
  - Implementation of recovery plan, phasing is important
  - Continue collaboration and learning

## Long-term recovery phase

# What are some of the pending questions?

## Key Considerations / Decisions

- What are the key points at the various stages of recovery – immediate, short-term, and medium to long-term?

## Multilateral support

- What are the most effective and conducive activities?
- What models work best?

## Tools and Resources

- What are the useful tools and resources available to government?

# How to Engage on the Draft Document

**We welcome inputs on the draft document.**

On-going process (until early March), with early inputs and comments appreciated by **February 13, 2017**.

- **Focal Point Contact:** If you would like to access the document, please contact *Alice Mortlock* ([amortlock@worldbank.org](mailto:amortlock@worldbank.org)), DRM Specialist at GFDRR.
- **Sharing Platform:** We will add you to our file sharing platform (Box).
- **Feedback Session:** After today's sessions, I will also be gathering feedback to share with GFDRR's Resilient Recovery team, and the other partners.
- **Organizational Inputs:** Coordinated inputs by organization are much appreciated. Please provide a list of names, titles, organizations, and email addresses of those consulted/engaged within your organization.

# *Thank you*
