PREVIEW

The PREVIEW Global Risk Data Platform is a multiple agencies effort to share spatial data information on global risk from natural hazards. Users can visualise, download or extract data on past hazardous events, human & economical hazard exposure and risk from natural hazards. It covers tropical cyclones and related storm surges, drought, earthquakes, biomass fires, floods, landslides, tsunamis and volcanic eruptions. The collection of data is made via a wide range of partners (see About for data sources). This was developed as a support to the Global Assessment Report on Disaster Risk Reduction (GAR) and replace the previous PREVIEW platform already available since 2000. Many improvements were made on the data and on the application.

• UNISDR Europe bulletin - monthly

Dear Colleagues,

This is the UNISDR Europe bulletin (8 Apr 2011).

=====

UNISDR Europe Announcements

*Third Session of the Global Platform for Disaster Risk Reduction, 8-13 May 2011 Geneva, Switzerland - less than 30 days to go!

The Programme for the Third Session of the Global Platform and the World Reconstruction Conference with time schedules and short descriptions of all planned events is now available on our website:
<http://www.preventionweb.net/globalplatform/2011/programme/>

On Monday 9 May an EFDRR consultation meeting will take place from 10-12 AM. The aim is to forge the regional position on Global Platform key matters and ensure its outcome to be included in the Chair's summary. On Monday afternoon from 2-5 PM the heads of IGOs and Regional Platform meeting will take place. In this afternoon session, key achievements and DRR priorities set at the regional and sub-regional levels through Ministerial and Regional Platforms meetings will be presented.

Disaster Reduction Goal

1. The European Forum for Disaster Risk Reduction is intended to serve as a forum to stimulate and facilitate the exchange of information and knowledge among participating National HFA Focal Points and Platforms and regional/sub regional partners.
2. To provide advocacy for effective action to reduce disasters, by contributing to the implementation of the Hyogo Framework for Action 2005-2015: Building the resilience of nations and communities to
