Journal Submission

Authors attending SAFE 2013 will be invited to submit an extended version of their paper for possible publication in the International Journal of Safety and Security Engineering, one of the Journals edited by the Wessex Institute.

Open Access

WIT strongly believes that removing the barrier to research published online will greatly aid progress in all scientific and technical disciplines, as well as all other spheres of knowledge. Most WIT conference and all journal papers are freely available online.

Submission Information

Papers are invited on the topics outlined and others falling within the scope of the meeting. Abstracts of no more than 300 words should be submitted as soon as possible.

Abstracts should clearly state the purpose, results and conclusions of the work to be described in the final paper. Final acceptance will be based on the full-length paper, which if accepted for publication must be presented at the conference.

The language of the conference will be English.

Online submission

Email submission
gwest@wessex.ac.uk

Submit your abstract with SAFE 2013 in the subject line.

Please include your name, full address and conference topic.

Location

The Italian capital, Rome, boasts an unrivalled 3,000 year heritage. The city is home to major historic landmarks, including the Colosseum, Forum and Palatine Hill, and abounds with world-class museums, churches and beautiful squares. As well as substantial Roman remains, significant Baroque and Renaissance buildings pepper the city centre. Today, Rome is not only a cultural centre, but also a commercial, financial and education hub that has successfully retained its traditional culture and regional cuisine.

Conference Venue

The conference will take place at the Grand Hotel Beverly Hills in Rome, close to the Borghese Gardens which are home to the Villa Borghese, one of the city's most prestigious art museums. The hotel offers a range of well-equipped rooms, as well as a café-bar and restaurant, serving regional specialities.

SAFE 2013

5th International Conference on Safety and Security Engineering

17 – 19 September 2013
Rome, Italy

WESSEX INSTITUTE OF TECHNOLOGY
ADVANCING INTERNATIONAL KNOWLEDGE TRANSFER

Organised by
University of Rome 'La Sapienza', Italy
Wessex Institute of Technology, UK

Sponsored by
WIT Transactions on the Built Environment
International Journal of Safety and Security Engineering

wessex.ac.uk/safe2013

This fifth Conference on Safety and Security Engineering follows the success of the first four meetings held in Rome in 2005, Malta in 2007, Rome in 2009 and Antwerp in 2011. The purpose of the conference is to provide a forum for the presentation and discussion of the most recent academic and industrial developments in theoretical and practical aspects of safety and security engineering.

Safety and security engineering, due to its special nature, is an interdisciplinary area of research and applications that brings together in a systematic view, many disciplines of engineering, from the traditional to the most technologically advanced. The conference covers areas such as crisis management, security engineering, natural disasters and emergencies, terrorism, IT security, man-made hazards, risk management, control, protection and mitigation issues, and many others.

The meeting aims to attract papers in all related fields, in addition to those listed under the conference topics, as well as case studies describing practical experiences. Due to the multitude and variety of topics included, the list is only indicative of the themes of the expected papers. Authors are encouraged to submit abstracts in all areas of safety and security, with particular attention to integrated and interdisciplinary aspects.

Who should attend

The conference is aimed at engineers, scientists, field researchers, managers and other specialists involved in one or more aspects of safety and security.

Benefits of Attending

Conference Books Papers are published in paper and digital format and widely distributed throughout the world. At registration, delegates receive a USB flash drive containing the conference proceedings, and those of previous conferences in the series. Papers are also archived at http://library.witpress.com

Book Dissemination WIT Press ensures maximum dissemination of your research throughout the world through its own offices in Europe, the USA and its extensive international distribution network.

Digital Archive All papers in the conference books are permanently archived at http://library.witpress.com where they are available to the international community.

Open Access Open Access allows for the full paper to be downloaded from the WIT eLibrary archives, offering maximum dissemination. Delegates who opt for Open Access will receive a collection of books on related fields on a USB flash drive at registration.

Journal Papers Presenters at WIT conferences will be invited to submit an extended version of their conference paper to one of the International Scientific Journals edited by the Wessex Institute.

Networking Participants can present their research and interact with experts from around the world, becoming part of a unique community.

Conference Chairmen

M Guarascio
University of Rome 'La Sapienza', Italy

C A Brebbia
Wessex Institute of Technology, UK

F Garzia
University of Rome 'La Sapienza', Italy

International Scientific Advisory Committee

C-S Ahn
Korea Institute of Construction Technology
South Korea

H Al-Humaidi
Kuwait University, Kuwait

S Conway
Urban Environmental Research, USA

D De Wrachien
State University of Milan, Italy

K Duncan
University of Toronto at Scarborough, Canada

E Fonseca
Polytechnic Institute of Bragança, Portugal

F Haghighat
Concordia University, Canada

F Hammond
University of Wolverhampton, UK

N Hirayama
Kyoto University, Japan

M Holicky
Czech Technical University in Prague
Czech Republic

G Janszen
Politecnico di Milano, Italy

M Jha
Morgan State University, USA

A Madan
Indian Institute of Technology, India

F Maestas
Applied Research Associates, USA

S Mambretti
Politecnico di Milano, Italy

M Miguez
Federal University of Rio de Janeiro, Brazil

M Mougeot
Université Paris-Diderot, France

G Reniers
University of Antwerp, Belgium

F Russo
Universita Mediterranea di Reggio Calabria, Italy

F Santos
Tabique Engenharia, Portugal

D Santos Reyes
I'CHI Research and Engineering, Mexico

L A Young
Applied Research Associates, Inc., USA

M Zineddin
Khalifa University of Science, Technology and Applied Research, United Arab Emirates

Conference Topics

Risk analysis, assessment and management

Infrastructure protection

Natural disaster management

Public safety and security

Emergency and disaster management

Modelling and theoretical studies

Human factors

System safety engineering

Business surveillance systems

Security surveillance systems

Critical infrastructure protection against natural hazards

Aviation safety and security

Modelling and experiments

Emerging issues in safety

Construction safety and security

Indexing and archiving of conference papers

Papers presented at Wessex Institute conferences are referenced by CrossRef and regularly appear in notable reviews, publications and databases, including referencing and abstract services such as **SCOPUS, Compendex, ISI Web of Knowledge, Index to Scientific and Technical Proceedings, ProQuest and Scitech Book News**. All conference books are archived in the British Library and American Library of Congress.

• Papers presented at SAFE 2013 will appear in a volume of **WIT Transactions on the Built Environment** (ISSN: 1746-4498, Digital ISSN: 1743-3509).

• All conference papers are archived online at http://library.witpress.com where they are immediately and permanently available to the international scientific community.
