2. [Image of Global Platform for DRR]
3. [Image of desinventar logo]
NATIONAL HFA MONITOR

- 102 countries participated in 2007-09 review [17 European Countries]
- 133 countries participated in 2009-11 review [22 European Countries]
- 11 IGOs participated in sub-regional review
- Cities participating in ‘Resilient City’ Campaign carrying out local review process
- More than 70 percent of participating countries engaged multiple stakeholders to ensure quality
Reviewing progress in disaster risk reduction: the 2011-2013 process of monitoring HFA progress at local, national and regional levels

2012

- National progress reviews
- Regional progress reviews
- Local progress reviews

2013

- Global and regional analysis
- Finalizing regional reports
- Finalizing national reports
- Finalizing local reports

Global Platform for Disaster Risk Reduction 2013

IR - Interim Reporting  FR - Final Reporting
NATIONAL HFA MONITOR - Current Status

Interim Report
Original Deadline: 30 September 2012
Extended to 12 October 2012:

- Interim submitted: 4 (Finland, Italy, Sweden, Switzerland)
- On-line reporting: 9
- A number of countries working off-line

Final Report
Deadline: 28 February 2013 – if to be considered as part of the European Regional Report – launch at the Global Platform for DRR 2013
Fourth Session of the Global Platform for Disaster Risk Reduction
19 - 23 May 2013
CICG, Geneva, Switzerland
Outcomes for GP 2013

• A stronger and more sustainable DRR movement worldwide, focusing on stakeholders (agents for change).

• A dynamic, innovative and trend-setting forum.

• Directions, new thinking and new alliances.

• A milestone in the consultations for the post-2015 Framework for DRR.

• Events that follow-up and progress on the 2011 Global Platform and reflect priorities in the Global Assessment Report.

• Set priorities and directions in the Chair’s Summary.

• A gender-balanced approach aiming of a panel participation of at least 50% of women
Stakeholders

**Governments** to provide accountability, coordination and resources.

**Mayors. Make Cities Resilient campaign**: Emphasis on risk assessment, practical applications, infrastructure and investment.

**Parliamentarians**. Their role at national and local levels, awareness raising in finance and planning ministries.

**Private Sector**. An increased role in looking for sustainable and common-sense solutions to pragmatic disaster risk reduction.

**Women and Children** as new actors for change and to mobilize untapped resources in communities.

**Disaster Risk Reduction Champions** to outline new ideas and proposals, raise profile of disaster risk reduction.

**Academic and Scientific Community** to apply evidence, guide risk assessment, methodologies, technological developments.

**NGOs and Civil Society Organisations** to promote community voices, outreach and engagement.
Concept Paper

Focus on three main constituencies to determine policies, practices and measures for disaster risk reduction and to take responsibility for reinforcing resilience to disasters. A particular focus will be on understanding the economics of disaster risk reduction more fully ...

- **Private Sector** for disaster resilient societies.

- Potential of **communities**: Tapping a wealth of energy, action and drive in our communities to reinforce resilience.

- **National governments** and **local governments** securing sustainable risk management.
Featured Events (14)

Emerging Evidence

- Unpacking the Global Assessment Report.
- The Economics of Reducing Disaster Risk.
- Applying Science to Practice in Disaster Risk Reduction.

Emerging Risks

- Pandemics.
- Droughts.

Emerging Solutions

- Public–Private Partnerships in Disaster Risk Reduction and Building Resilience.
- Resilient Heritage.
- Climate Change Resilience.
- Reconstruction Framework: Two Years from the World Reconstruction Conference.

Emerging Actors for Change

- Mayors: Building Resilient Cities and Communities.
Draft Schedule

FOURTH SESSION OF THE GLOBAL PLATFORM FOR DISASTER RISK REDUCTION, 19-23 MAY 2013 - DRAFT PRELIMINARY SCHEDULE
Final Concept Paper has been distributed after consultations.

Preliminary agenda and schedule drafted.

Logistics and preparations for conference services well under way, procurement of several main services.

Registration is open! 100 people already registered!

2nd Announcement has been issued

Invitations have been and are continued being sent out
Building Disaster Loss Database
UNISDR support to countries building Disaster Loss Database

Number of education facilities damaged (1970-2009) per province (Argentina, Bolivia, Chile, Colombia, Costa Rica, Ecuador, Panama, Peru, Venezuela)

Status of Progress in building National Disaster Datasets June 2011
Applications for EFDRR Members:

1. Defining baselines

2. Determining countries’ vulnerability

3. Assessing effectiveness of adaptation measures
Disaster loss databases: built by governments, for governments

UNISDR plays two roles:

1. Coordination (conducting training sessions and building capacity to help governments launch their databases)

2. Analysis (e.g., 2011 & 2013 Global Assessment Report on Disaster Risk Reduction)

Currently, Croatia, Italy, and Serbia have undertaken initial steps to develop their own national disaster loss database.
