UN World Conference on  
Disaster Risk Reduction  
2015 Sendai Japan

*UN General Assembly Resolution 67/209 (December 2012) decided to convene the World Conference on Disaster Risk Reduction to:*

- Review the implementation of the HFA over its 10-year term.**
- Consider experiences gained at regional and national levels.**
- Adopt a post-2015 framework for disaster risk reduction.**
- Identify modalities of cooperation based on commitments to implement the post-2015 framework.**
- Determine modalities for period review.**

## ***Commission Communication and EU Council Conclusions***

- **Progress and challenges in disaster management**
- **EU disaster risk management policy and resilience agenda**
  - Policy achievements related to disaster risk management in the EU
  - EU support to developing countries with focus on building resilience in crisis prone countries
- **Principles for the new Framework**

# 5 principles of the new framework:

- **Improving accountability, transparency and governance**
- **A framework to deliver results - role of targets and indicators to measure progress and encourage implementation**
- **Strengthening the contribution to sustainable and smart growth**
- **Addressing vulnerabilities and needs in a comprehensive framework**
- **Ensuring coherence with the international agenda**

# ***1. Improving accountability, transparency and governance***

- Set of standards and accountability tools
- Periodic peer review mechanisms
- Data improvements and exchange
- Enhancement of governance at all levels
- Strong role of regional inter-governmental organisations

## ***2. A framework to deliver results***

***role of targets and indicators to measure progress and encourage implementation***

- New monitoring system to measure progress
- Develop action-driven and result oriented targets
- Support a regional approach to targets building on the regional strategies
- Develop indicators measuring the impact of disasters over time to track progress

### ***3. Strengthening the contribution to sustainable and smart growth***

- Disaster proofing in financial decisions
- Partnerships across public, private and other stakeholders
- Role of insurance and market-based instruments
- Innovative technologies and instrument
- Science-policy interface
- Joint approach with climate adaptation and focus on underlying risk drivers

## ***4. Addressing vulnerabilities in a comprehensive framework***

- Whole-of-society approach: empowering vulnerable groups and promote the role of women
- Build resilience in all urban areas and rural settings by comprehensive risk assessments
- Include conflict, technological risks, small local disasters and global shocks and stresses

## ***5. Ensuring coherence with the international agenda***

- Integrate disaster risk management and climate change adaptation policies into the international sustainable agenda
- Policies, goals, targets and their monitoring mutually supportive and reinforcing
- The role of international law (*duty to prevent*)
