

UNISDR Science and Technology Conference

Mobilizing science to implement the Sendai Framework

27-29 January 2016

Geneva, Switzerland

UNISDR

The United Nations Office for Disaster Risk Reduction

Work stream 1: Scientific and technical partnership to support the implementation of the Sendai Framework		
1 Australian Stakeholder Attitudes to Disaster Risk Reduction Education and Innovative Strategies to Promote Effectiveness and Scaled Implementation <i>Barbara Kelly, CQUniversity</i>	31 Comparison between lecture and teletriage in nursing students <i>Seyed Habibollah Kavari, University of Social Welfare and Rehabilitation Sciences (USWR), Tehran, Iran</i>	62 PLACARD: building a platform for CCA and DRR cooperation by 2020 <i>Mario Pulquerio, FFCUL</i>
2 Global Disaster Resilience Centre, University of Huddersfield, UK <i>Dilanthi Amaratunga, University of Huddersfield, UK</i>	32 Disability and Disasters: Empowering people and building resilience to risk in Southeast Asia <i>Emma Calgaro, University of Sydney</i>	63 Building bridges for a better global flood risk management - the Global Flood Partnership <i>Feyera Hirpa, European Commission Joint Research Centre</i>
3 Strengthening Regional Science and Technology Cooperation for SFDRR Implementation: Opportunities and Challenges in South Asia <i>Jyotiraj Patra, British High Commission</i>	33 SEI Initiative on Transforming Development and Disaster Risk <i>Frank Thomalla Stockholm Environment Institute</i>	64 Research and capacity building for Disaster Risk reduction and Climate Change Adaptation at The University of the South Pacific – Importance of partnerships <i>Helene Jacot Des Combes, The University of the South Pacific</i>
4 Disaster research at the London School of Hygiene and Tropical Medicine <i>Sari Kovats, LSHTM</i>	34 The Japan Academy of Nursing Science and World Academy of Nursing Science, Integrate and Fuse Domains of Cure and Care into Ensuring Human Security <i>Hiroko Minami, World Academy of Nursing Science</i>	65 Disaster Resilience Integrated Framework for Transformation (DRIFT) <i>Bernard Manyena, University of Manchester</i>
5 The Manila Observatory (MO) and the International Research Initiative on Adaptation to Climate Change (IRIACC) - Coastal Cities at Risk (CCaR) <i>Ma. Antonia Yulo-Loyzaga, Manila Observatory</i>	35 International Federation for Information Processing and its Domain Committee on Information Technology in Disaster Risk Reduction <i>Dimiter Velez, International Federation for Information Processing</i>	66 GEM Foundation: Improving knowledge of earthquake risk worldwide <i>John Schneider, GEM (Global Earthquake Model) Foundation</i>
6 International Partnerships of Local Authorities for Disaster Risk Reduction <i>Alan Avi Kirschenbaum, Local Authorities Confronting Disasters & Emergencies</i>	36 Bridging science and practice of risk-sensitive urban planning: the role of UNISDR's Urban Planning Advisory Group <i>Ricardas Sliuzas, University Twente</i>	67 IAP and Disaster Risk Reduction <i>Peter McGrath InterAcademy Partnership</i>
7 The American Red Cross Scientific Advisory Council: Providing evidence-based guidance since 1999 <i>Steven Jensen, Massey University</i>	37 Necessity of Global Research Platform on Nuclear Disaster Risk Reduction and Recovery <i>Shunichi Yamashita, Nagasaki University</i>	68 Building a More Resilient Nepal-The Utilisation of the Resilience Scorecard for Kathmandu, Nepal following the Gorkha Earthquake of 2015 <i>Michael Whitworth, AECOM</i>
8 Indicator based Approach on Role of Science Technology in Disaster Risk Reduction in Asia <i>Rajib Shaw, Kyoto University</i>	38 Innovations in Partnerships for Host Nation Empowerment in Disaster Risk Reduction and Response <i>Rebekah Yore, Rescue Global</i>	69 Work stream 2: Understanding disaster risk, risk assessment and early warning
9 The RHISE Group - Researching the Health Implications of Seismic Events A collaborative research structure emerging from the Christchurch earthquakes. <i>Michael Ardagh, University of Otago Christchurch</i>	39 Protecting lives, enhancing compliance and reducing public concern through cognitive linguistic communication <i>Gabriella Rundblad, Centre for Language, Discourse and Communication</i>	
10 Deltares supporting the Scientific and Technical Partnership <i>Lydia Cumiskey, Deltares</i>	40 Skill Development as a means to "Build Back Better" in Disaster Mitigation, Recovery and Rehabilitation <i>Bhavani R. Rao, Amrita University</i>	70 A collaborative approach to disaster training and education <i>Karen Hammad, Torrens Resilience Institute</i>

11	Geology for Global Development: Mobilising and equipping young geologists to engage in disaster risk reduction <i>Joel Gill, Geology for Global Development</i>	41	Public Health England – working to reduce the impact of hazards both nationally and globally <i>Virginia Murray, Public Health England</i>	71	“Disaster Risk Management Knowledge Centre”– Pooling knowledge and networks in disaster risk management <i>Delilah Al Khudhairy, European Commission - Joint Research Centre</i>
12	Disaster Mental Health Risk Reduction – An Upstream Paradigm Shift for Disaster Mental Health <i>Lennart Reifels, University of Melbourne / Free University of Berlin</i>	42	The Global Wildland Fire Network: A UNISDR Thematic Platform to Address Vegetation Fires, Global Change and Disaster Risk Reduction <i>Johann Georg Goldammer, The Global Fire Monitoring Center (GFMC)</i>	72	Building Resilience to Climate Change and Disasters in the Pacific Region: Project-based Strategies for Disaster Risk Reduction <i>Paul Taylor, Pacific Community - Geoscience Division</i>
13	An integrated, collaborative approach to urban resilience <i>Stephen Passmore, The Ecological Sequestration Trust</i>	43	The European Centre for Medium-Range Weather Forecasts: global medium-range ensemble weather forecasts supporting decision-making in disaster risk management <i>Ervin Zsoter, ECMWF</i>	73	Resilient Glasgow: A Scottish Case Study of Implementing the Sendai Framework <i>Eleanor Murtagh, University of Strathclyde</i>
14	Partnership: A New 'Technology' in Disaster Risk Reduction <i>Edson Munsaka, National University of Science and Technology</i>	44	Enhancing Resilience via Engaging Spontaneous Volunteers in the Official Response System <i>Ayham Fattoum, Alliance Manchester Business School</i>	74	Global Centre for Disaster Statistics -Connecting UN, Academia and Policy Makers in countries to support the implementation of the Sendai Framework- <i>Yuichi Ono, International Research Institute of Disaster Science, Tohoku University</i>
15	Next Generation Core Competencies for Disaster Risk Management <i>Shirley Feldmann-Jensen, California State University Long Beach</i>	45	State of art of DRR’s research in Brazil and the proposal of a Brazilian Research Network in Disaster Risk Reduction <i>Mário Freitas, Santa Catarina State University - Brasil (SC)</i>	75	Building Community Health Resilience to Disasters: A Multistakeholder Partnership Approach <i>Emily Ying-Yang Chan, Collaborating Centre for Oxford University and CUHK for Disaster and Medical Humanitarian Response (CCOUC), The Chinese University of Hong Kong</i>
16	Earthquake Disaster Risk Reduction Promoted by National Institute URBAN-INCERC and European Center for Buildings Rehabilitation - ECBR, Bucharest, Romania <i>Emil Sever Georgescu, The National R-D Institute URBAN-INCERC</i>	46	Partnerships for a better implementation of ecosystem-based disaster risk reduction (eco-DRR) and adaptation (EbA): linking science, policy and practice <i>Camille Buyck, International Union for Conservation of Nature</i>	76	The Role of SASPARM Project on Building the Resilience of the Palestinian Community to Disasters <i>Jalal Al Dabbeek, An Najah National University</i>
17	The Royal Society: romoting science for disaster risk reduction <i>Sally Tyldesley, The Royal Society</i>	47	Building a Regional Humanitarian Partnership Team (RHPT) for enhancing Emergency Response and DRR in the South West Indian Ocean Sub-Region <i>Stephanie Hodge, United Nations Development Programme, Comoros</i>	77	Managing Risks? Early Warning Systems for Climate Change Related Hazards <i>Zinta Zommers, UNEP</i>
18	King's Centre for Integrated Research on Risk and Resilience (CIRRR) <i>Mark Pelling, King's College London</i>	48	The Emergence of a Globalized System for Disaster Risk Management and Challenges for Appropriate Governance <i>Steven Jensen Massey University</i>	78	Urban safety through the eyes of cultural heritage <i>Hisila Manandhar, Kathmandu Valley Development Authority</i>
19	The Earthquakes without Frontiers research project and its role in resilience building <i>Susanne Sargeant, British Geological Survey</i>	49	“The Youth Voice” - Disaster and Development Society (DDS) <i>Mark-Ashley Parry, Disaster and Development Society</i>	79	Breaking the cycle of hunger and disaster risk: understanding hot spot regions and causal feedbacks <i>Matthias Garschagen, United Nations University</i>
20	Resilience Building – Local Partnerships (Contribution for Development of a Tsunami Monitoring and Early Warning System) <i>Carlos Rabaçal, Setúbal Municipality</i>	50	“Global Human Settlement expert working group”– advanced space technologies in support to international frameworks <i>Martino Pesaresi, European Commission - Joint Research Centre</i>	80	Disaster risk reduction efforts and factors affecting flood disaster management: A case study of Katakwi district-Olupe and Ngariam Camps. <i>Skylar Jayden Dembe, Green World Uganda</i>
21	Landslides in Equatorial Africa: Identifying culturally, technically and economically feasible resilience strategies <i>Jan Maes, KU Leuven/VUB</i>	51	Disaster preapredness and emergency management on campus: the Multi-Hazards Program by the Asscoiation of Pacific Rim Universities (APRU) <i>Takako Izumi, IRIDeS, Tohoku University</i>	81	Strategies for interorganisational collaboration in disaster prevention <i>Marie Bartels, Technische Universität Berlin</i>
22	Disaster and Development Network (DDN): Partnerships for strengthening resilience to disasters through local community involvement <i>Andrew Collins, Northumbria University</i>	52	Disaster Robotics for the Disaster Risk Reduction <i>Satoshi Tadokoro, Tohoku University / IEEE Robotics and Automation Society</i>	82	The Search of the Liquid Treasure: safe water supply in disaster scenario <i>Marta Vasconcelos Pinto, Escola Superior de Tecnologia da Saúde de Coimbra, Coimbra Health School</i>

23	Earthquake Forecasting: From Research To Practical Application <i>Michio Hirai, Information Systems</i>	53	The Global Volcano Model network: collaborative volcanology for building a global understanding of volcanic hazard and risk <i>Melanie Duncan, British Geological Survey</i>	83	Post-nuclear disaster evacuation and survival amongst elderly people in Fukushima: a comparative analysis between evacuees and non-evacuees <i>Shuhei Nomura, Imperial College London</i>
24	The Dutch National Risk Assessment: An All Hazard strategy connecting multidisciplinary science and policy <i>Marcel G. Mennen, National Institute for Public Health and Environment (RIVM)</i>	54	UNESCO and Disaster Risk Reduction <i>Jair Torres, UNESCO</i>	84	The uses of catastrophe modelling for Disaster Risk Reduction <i>Daniel Stander, RMS</i>
25	Healthier, safer and resilient communities and countries: the role of health partnerships in strengthening science and evidence for disaster risk management <i>Jonathan Abrahams, World Health Organization</i>	55	Probability Uncertainty and Risk in the Environment Knowledge Exchange Network <i>Vera Hazelwood, Smith Institute for Industrial Mathematics and System Engineering</i>	85	Mitigating drought risk through better seasonal management of groundwater supplies from low storage aquifers in Africa <i>Rosalind Cornforth, Walker Institute</i>
26	Disaster bioethics: A COST Action network addressing ethical issues in disasters <i>Dónal O'Mathúna, Dublin City University</i>	56	Global Alliance for Disaster Risk Reduction and Resilience in the Education Sector (GADRRRES) <i>Jair Torres, UNESCO</i>	86	Rapid Disaster Risk Assessment of Coastal Communities: A Case Study of Mutiara Village, Banda Aceh, Indonesia <i>Shesh Kafle, Disaster and Climate Change Study Centre, Nepal (DCCSC Nepal)</i>
27	Implications of Sendai Framework of Disaster Risk Reduction for South Asia: Geneva Follow-up Action by Transdisciplinary Academic Community for Policy Briefing <i>Suraj Mal, Department of Geography, Shaheed Bhagat Singh College, University of Delhi, India</i>	57	UK Government – Natural Hazards Partnership <i>Ian Lisk, Met Office</i>	87	Building Resilience Through Disaster Recovery: Aceh 10 Years On from the Tsunami <i>Michael Boyland, Stockholm Environment Institute</i>
28	Disaster Preparedness and Response: How Public Libraries Can Partner with Local Agencies to Meet Community Needs <i>Christine Hagar, San Jose State University</i>	58	Roadmap for European disaster resilience network for education - ANDROID <i>Richard Haigh, University of Huddersfield, UK</i>	88	Probabilistic assessment of life-lost years due to premature mortality because of earthquakes in Latin America and the Caribbean <i>Mario Andres Salgado-Gálvez, International Center for Numerical Methods in Engineering</i>
29	Multidimensional Approach to Integration of Disaster Reporting Systems: Leveraging on Strengths, Openness, Trust in Project Agos and Project eBayanihan <i>Maria Regina Justina Estuar, Ateneo de Manila University</i>	59	Quantification of Resilience in Earthquake Engineering <i>Mohsen Ghafory-Ashtiany, Iranian Earthquake Engineering Association</i>	89	Modelling of sea-level rise, inundation and effects on Bonriki freshwater lens, Tarawa, Kiribati <i>Amandine Bosserelle, Secretariat of the Pacific Community</i>
30	Improving Disaster Risk Management: Considerations for advancing policy and operational frameworks for Unmanned Aerial Vehicles and other Advanced Technologies <i>Steven Jensen, Massey University</i>	60	Post-disaster Emergency Communication for School Evacuation Shelters: A Spatial Analysis of the Sendai Municipal Disaster Prevention Radio System <i>Takashi Oda, Miyagi University of Education, Sendai</i>	90	Making waves: The politics of tsunami rehabilitation and recovery in the Andaman Islands <i>Sophie Blackburn, King's College London</i>
		61	Resilient urban planning and water risk: The city of Rome flood mapping updating program <i>Fernando Nardi, Università per Stranieri di Perugia</i>	91	Inter-organizational network modelling for assessing tsunami early warning structure in West Sumatera <i>Mizan Bustanul Fuady Bisri, Kobe University</i>
