

# UNISDR Science and Technology Conference

Mobilizing science to implement the Sendai Framework

27-29 January 2016

Geneva, Switzerland

# UNISDR

The United Nations Office for Disaster Risk Reduction

<p><b>Work stream 2: Understanding disaster risk, risk assessment and early warning</b></p>	<p>33 <b>Monitoring disaster risk reduction targets: the example of INFORM</b> <i>Tom De Groot, European Commission - Joint Research Centre</i></p>	<p>66 <b>Using Participatory Approaches to Identify Vulnerability Indicators for Social-Ecological Systems Facing Multiple Hazards</b> <i>Zita Sebesvari, United Nations University</i></p>
<p>1 <b>Flood Hazard and Risk Assessment for Lebanon</b> <i>Chadi Abdallah, CNRS</i></p>	<p>34 <b>Assessment of Drought Vulnerability using Spatial Information System: A Case study of Rajasthan, India</b> <i>Ajay Kumar, University of Delhi</i></p>	<p>67 <b>Climate Change and Infectious Diseases: A case study of climate variability and malaria incidence in the forest zone of Ghana, West Africa</b> <i>Sylvester Danuor, Kwame Nkrumah University of Science and Technology (KNUST)</i></p>
<p>2 <b>Global Dynamic Exposure and the OpenBuildingMap</b> <i>Danijel Schorlemmer, German Research Center for Geosciences, Potsdam, Germany</i></p>	<p>35 <b>Resilience of art cities to natural catastrophes: the initiatives of Accademia dei Lincei in collaboration with IAP</b> <i>Antonio Sgamellotti, Accademia Nazionbale dei Lincei; IAP</i></p>	<p>68 <b>Inter-organizational network modelling for assessing tsunami early warning structure in West Sumatera</b> <i>Mizan Bustanul Fuady Bisri, Kobe University</i></p>
<p>3 <b>How Seismology and Earthquake Engineering May Contribute to the Regional Earthquake Risk Reduction Activities During the Sendai Framework Period?</b> <i>Maria-Jose Jimenez, CSIC Madrid</i></p>	<p>36 <b>Risk prevention for catastrophic landslides: Abe Barek revisited</b> <i>Andrew Kos, Terrasense Switzerland - Geological Risk Prevention</i></p>	<p>69 <b>Reducing Local Losses from Flash Flooding through Regional Implementation of Early Warning Systems having Global Coverage</b> <i>Rochelle Graham, Hydrologic Research Center</i></p>
<p>4 <b>The Need for Psycho-social Support for Older Women in Japan During the Recovery Phase</b> <i>Mayumi Kako, Flinders University</i></p>	<p>37 <b>Disaster Risk Reduction using integrated open sources smart geospatial technology: A case study of landfall of Cyclone Phailin, Odisha, India</b> <i>Manoranjan Mishra Gangadhar, Meher University, India</i></p>	<p>70 <b>Linking Adaptive and Interactive Governance for Disaster Risk Reduction (DRR)</b> <i>Annisa Triyanti, University of Amsterdam</i></p>
<p>5 <b>Making Waves: The Politics of Tsunami Rehabilitation and Recovery in the Andaman Islands</b> <i>Sophie Blackburn, King's College London</i></p>	<p>38 <b>Urban Africa: Risk Knowledge</b> <i>Mark Pelling, King's College London</i></p>	<p>71 <b>Indigenous Knowledges: A panacea for understanding Disaster risk?</b> <i>Edson Munsaka, NATIONAL UNIVERSITY OF SCIENCE AND TECHNOLOGY</i></p>
<p>6 <b>Urban Flood of Coastal Mega-cities: Risk Assessment and Responses in Shanghai City</b> <i>Ruishan Chen, East China Normal University</i></p>	<p>39 <b>Building disaster resilient livelihoods in the era of change: the interaction of flooding, migration and ethnicity in selected villages in Laos</b> <i>Albert Salamanca, Stockholm Environment Insitute</i></p>	<p>72 <b>Earthquake Preparedness: Managing Social Processes in Reducing Risks</b> <i>Alan Avi Kirschenbaum, Local Authorities Confronting Disasters &amp; Emergencies</i></p>
<p>7 <b>Heavy rainfall induced risks: new tools based on meteorological radars and flood risk maps to improve early warnings and emergency management.</b> <i>Daniel Sempere-Torres, Universitat Politècnica de Catalunya</i></p>	<p>40 <b>Risk sensitizing future investment against disaster risk</b> <i>Junko Mochizuki, Iiasa</i></p>	<p>73 <b>The role of colour perception and cultural associations in the interpretation of early warning systems</b> <i>Chris Tang, Dept of Education and Professional Studies, King's Colleague London</i></p>
<p>8 <b>From Big Science to a Small Community: Assessment and Understanding of Multi-hazard Risks - Case Study of a Protected Area in Bucharest, Romania</b> <i>Emil Sever Georgescu, The National R-D Institute URBAN-INCERC</i></p>	<p>41 <b>Coastal hazards and Tsunami Risk Assessment and Management- Case Study from Sri Lanka</b> <i>Sam Hettiarachchi, University of Moratuwa</i></p>	<p>74 <b>Spatial and Trend Analysis of Communicable Diseases throughout the 2014 Flooding of the Kelantan River Basin in Malaysia</b> <i>Mohd Firdaus Mohd Radi, Department of Community Health, National University of Malaysia, Kuala Lumpur</i></p>
<p>9 <b>From risk assessment to implementation of risk zonation: a case-study of Limbe city, Cameroon</b> <i>Jan Maes, KU Leuven/VUB</i></p>	<p>42 <b>Economics of reclamation of flood-damaged areas: A case study from Nepal</b> <i>Shesh Kafle, Disaster and Climate Change Study Centre, Nepal (DCCSC Nepal)</i></p>	<p>75 <b>An evaluation of early countermeasures to reduce the risk of internal radiation exposure after the 2011 Fukushima nuclear incident in Japan</b> <i>Shuhei Nomura, Imperial College London</i></p>

10	<b>Mid and Long-term Feedback on Post-disaster Recovery Process</b> <i>Annabelle Moatty, UMR GRED (Join Unit Research team - Governance Risks Environment and Development)</i>	43	<b>Off the Radar: Severe storms and their impacts in the Western Cape, South Africa</b> <i>Robyn Pharoah, Research Alliance for Disaster and Risk Reduction</i>	76	<b>The Use of Volunteered Geographic Information for Disaster Risk Reduction – A case study of São Carlos, Brazil</b> <i>Maria Clara Fava, University of São Paulo</i>
11	<b>Post-nuclear disaster evacuation and chronic health in adults in Fukushima, Japan: a long-term retrospective analysis</b> <i>Shuhei Nomura, Imperial College London</i>	44	<b>Addressing antimicrobial resistance through the Sendai Framework on disaster risk reduction</b> <i>Thara Raj, Public Health England</i>	77	<b>Waterlogging Vulnerability Assessment of Coastal Urban Community: A Case Study of Chittagong City Corporation Area, Bangladesh</b> <i>Md. Rezuhanul Islam, Asian Disaster Preparedness Center (ADPC)</i>
12	<b>The evidence gaps in health emergency planning and disaster preparedness in the UK</b> <i>Andrew Lee, School of Health and Related Research, The University of Sheffield</i>	45	<b>Exploring the collection and analysis of disaggregated data to help improve the humanitarian response to women and girl's after a disaster</b> <i>Kevin Blanchard, Public Health England</i>	78	<b>Data Mining in Twitter to Support Disaster Risk Reduction During Typhoon Events</b> <i>Sheila Bonito, University of the Philippines Open University</i>
13	<b>Assessing the impact of climate change and socio-economic development on future coastal flood mortality</b> <i>Sari Kovats, LSHTM</i>	46	<b>Integrating Health in Disaster Response, Recovery and Rehabilitation using SHINE OS+: The Nepal Experience</b> <i>Maria Regina Justina Estuar, Ateneo de Manila University</i>	79	<b>Application Potential of Multidimensional Scaling for the Design of DSS in Transport Insurance</b> <i>Victor Vican, Jacobs University</i>
14	<b>Multi hazard risk assessment using high resolution remote sensing</b> <i>Jonas von Ruette, Terrasense Switzerland - Geological Risk Prevention</i>	47	<b>Regulatory Issues of Disaster Risk Governance in the Education Sector</b> <i>Fadi Hamdan, DRMC</i>	80	<b>Child centered disaster risk reduction integrating with climate smart interventions in coastal Andhra Pradesh.</b> <i>Meda Gurudutt Prasad, CADME (Coastal Area Disaster Mitigation Efforts)</i>
15	<b>Mobile services for flood early warning in Bangladesh</b> <i>Lydia Cumiskey, Deltares</i>	48	<b>Integrating FrontlineSMS Application into the Identification and Evaluation of Risk Impact from Gold Rush and Mining in Bombana District, Indonesia</b> <i>Omar Pidani, Australian National University</i>	81	<b>Effects of repeated environmental disasters on the survival of human communities and the resilience of natural ecosystems over 300 years in North East Iceland</b> <i>Ragnhildur Sigurdardottir, Reykjavik Academy</i>
16	<b>Flooding and public health – using local media reports to improve our understanding of impacts and responses within communities.</b> <i>Ishtar Al-Shammari, Imperial College London</i>	49	<b>QLARM; a Global Model for Earthquake Loss Estimates in Real-Time and Scenario Modes</b> <i>Philippe Rosset, International Centre for Earth Simulation</i>	82	<b>Understanding Risk - Everyday Perspectives</b> <i>Terry Gibson, Global Network of Civil Society Organisations for Disaster Reduction</i>
17	<b>Seismic Risk in the Himalaya Constrained by Geodetic Data</b> <i>Victoria Stevens, California Institute of Technology</i>	50	<b>Risk assessment of natural hazards in Iceland – an overview</b> <i>Sigrún Karlsdóttir, Icelandic Meteorological Office</i>	83	<b>Establish a Pan-European Information Space to Enhance security of Citizens</b> <i>Alexander Preinerstorfer, Austrian Institute of Technology</i>
18	<b>Wireless Sensor Networks for Real Time Monitoring &amp; Early Warning of Landslides: A Real World Deployment in Western Ghats &amp; Himalayas in India</b> <i>Maneesha Vinodini Ramesh, Amrita Vishwa Vidyapeetham (Amrita University)</i>	51	<b>Modelling of sea-level rise, inundation and effects on Bonriki freshwater lens, Tarawa, Kiribati</b> <i>Amandine Bosserelle, Secretariat of the Pacific Community</i>	84	<b>Measuring health impacts of a nuclear accident: a case in a coastal area in Fukushima</b> <i>Sae Ochi, Soma Central Hospital</i>
19	<b>What do we know about awareness and risk perceptions of extreme temperature warning in subtropical city in Asia? A glimpse of the young educated population</b> <i>Emily Ying-Yang Chan, Collaborating Centre for Oxford University and CUHK for Disaster and Medical Humanitarian Response (CCOUC), The Chinese University of Hong Kong</i>	52	<b>Aral Sea Disaster: Sustainable water resources management in Central Asia</b> <i>Abror Gadaev, Samarkand state architectural and civil engineering institute</i>	85	<b>CARISMAND: Culture And RISkmanagement in Man-made And Natural Disasters. Better understanding the links between culture, risk perception and disaster management</b> <i>Jose L. Diego, Valecia Local Police</i>
20	<b>Participatory Disease Surveillance: An Emerging Approach for Early Warning and Risk Communication</b> <i>Adam Crawley, Skoll Global Threats Fund</i>	53	<b>Funding health services in the long road to recovery from a natural disaster: Lessons from the New Zealand experience.</b> <i>Alistair Humphrey, Canterbury District Health Board</i>	86	<b>Quick-scan methodology to protect critical urban infrastructure from floods Case study Bangkok, Thailand</b> <i>Chris Zevenbergen, UNESCO-IHE</i>
21	<b>Digital inclusion of flood affected communities to close the last mile data gap and to create actionable information for an improved preparedness and response</b> <i>Marc van den Homberg, Cordaid</i>	54	<b>Health Centred Disaster Risk Reduction (HCDRR)</b> <i>Andrew Collins, Northumbria University</i>	87	<b>Testing new technologies for forecast warnings of large earthquake events: The complexity of the new challenges</b> <i>Garry de la Pomerai, Ertha Space- Soluzion, UAE</i>

22	<b>The tragic accident caused by the rupture of a dam mining waste in Mariana MG, Brazil in November 2015: lessons for the future</b> <i>Mário Freitas, Santa Catarina State University - Brasil (SC)</i>	55	<b>Spatial analysis of elements at risk and household vulnerability to landslide hazards on Mt. Elgon, Uganda</b> <i>Sammy Ratemo, Eco Innovations International</i>	88	<b>Intergrating Indigenoud Knowledge in Disaster Risk Management in Highland Areas: A Case study of the Kigezi Highlands in Uganda</b> <i>Edson Kamagara, African Population Institute</i>
23	<b>Disaster Risk Reduction in the Greater Chicago Area</b> <i>Christina Spoons, Walden University</i>	56	<b>Measuring community resilience to disasters: Case studies from India and South America.</b> <i>Margherita Fanchiotti, UNESCO &amp; University of Southampton</i>	89	<b>Are Global Economic Losses from Natural Hazards Increasing?</b> <i>Caroline McMullan, AIR Worldwide</i>
24	<b>Spatial planning as a tool for flood risk reduction in East African cities</b> <i>Ricardas Sliuzas, University Twente</i>	57	<b>UK Government – International Horizon Scanning Science Partnership</b> <i>Gavin Iley, Met Office</i>	90	<b>Integrative Transdisciplinary Vulnerability and Resilience Assessment (TIV)</b> <i>Martin Voss, Disaster Research Unit (DRU)</i>
25	<b>Understanding the relationships between the droughts and regional development options in the West Region of Santa Catarina</b> <i>Mário Freitas, Santa Catarina State University - Brasil (SC)</i>	58	<b>Building resilience at the local level: experience in implementing the resilient city campaign in Kendari city Indonesia</b> <i>Riyanti Djalante, Local Government of Kendari City, Indonesia</i>	91	<b>The need for Inclusive Flood Risk Governance in Jakarta, Indonesia</b> <i>Gusti Ayu Surtiari, UNU-EHS</i>
26	<b>Co-production of science and society in volcanic crises: insights into scientific advisory practice</b> <i>Amy Donovan, King's College London</i>	59	<b>Monitoring global exposure trough advanced space technologies: the example of Global Human Settlement Layer</b> <i>Martino Pesaresi, European Commission - Joint Research Centre</i>	92	<b>The lifecycles of drought: Science, early warning and adaptation across timescales</b> <i>Roger Pulwarty, NOAA</i>
27	<b>A Global Tsunami Model network for increased understanding of tsunami hazard and risk</b> <i>Finn Løvholt, NGI</i>	60	<b>Structural vulnerability assessment of hospitals from a probable earthquake in Tehran, Iran</b> <i>Abbas Ostadtaghizadeh, Tehran Disaster Mitigation and Management Organization</i>	93	<b>Interweaving Impacts of Natural Disasters (The Case of Southern Leyte, Philippines)</b> <i>Maria Teresa Sharon Linog, Research Institute for Mindanao Culture</i>
28	<b>Application of Simple Predictive Models for Drought Risk Reduction in Developing Countries</b> <i>Babatunde Adeogun, Ahmadu Bello University, Zaria, Nigeria</i>	61	<b>Disaster Risk Reduction, Uganda Chapter, A Case of Bududa Landslides</b> <i>Rumanzi Benita, Africa Population Institute</i>	94	<b>Forecasting regional flood hazard</b> <i>Liz Stephens University of Reading</i>
29	<b>The challenges and opportunities of early warning messages aimed at evacuation compliance: A case report following Cyclone Aila in Bangladesh</b> <i>Md. Nasif Ahsan, International Centre for Water Hazard and Risk Management (UNESCO-ICHARM), Public Works Research Institute</i>	62	<b>Ensemble weather forecasts supporting decision-making for disaster risk reduction</b> <i>Ervin Zsoter, ECMWF</i>	95	<b>The monetary benefit of early flood warnings</b> <i>Hannah Cloke, University of Reading</i>
30	<b>Risk-Level Assessment System on Bengawan Solo's Flood Prone Areas using AHP and Web GIS</b> <i>Haris Rahadiano, Electronics Engineering Polytechnic Institute of Surabaya</i>	63	<b>A parallel computing framework for physically-based global flood hazard modeling</b> <i>Yasir Kaheil, FM Global</i>	96	<b>emBRACE - Building Resilience Amongst Communities in Europe</b> <i>Richard Taylor, Stockholm Environment Institute</i>
31	<b>Urban seismic risk assessment with a holistic approach for the National District in Santo Domingo, Dominican Republic</b> <i>MARTHA LILIANA Carreño, International Center for Numerical Methods in Engineering</i>	64	<b>Supporting continental and global scale disaster risk management: Flood early warning systems</b> <i>Feyera Hirpa, European Commission Joint Research Centre</i>	97	<b>Ensure Food Safety in Natural Disasters</b> <i>Fernando Moreira, College of Health Technology of Coimbra</i>
32	<b>Developing a framework for spatial risk assessment of environment-related diseases for strengthening decision-making processes in the public health sector</b> <i>Yvonne Walz, United Nations University, Institute for Environment and Human Security (UNU-EHS)</i>	65	<b>National Emergency Management Agency (NEMA) And Flood Disaster Management in South West Nigeria</b> <i>Taiwo Oladeji Adefisoye, Disaster Management, Governance and Development Initiative (DIMAGDI)</i>	98	<b>INTER-Asian initiative on joint NATural and TECHnological (Natech) risk reduction at industrial estates</b> <i>Ana Maria Cruz, DPRI, Kyoto University</i>
