The UNESCO Chair in Technologies for Development at EPFL is organizing its biennial international conference to promote the application of innovative technology solutions to advance inclusive social and economic development in the Global South.

The Conference provides an opportunity to:

- Network across disciplines and fields of technology, to promote the development, deployment, adaptation, and scaling of new solutions for the Global South.
- Reinforce collaboration among key stakeholders – academics, entrepreneurs, innovators, field practitioners, policy makers, and private sector professionals – for a holistic approach to technology development.
- Build capacity among students to engage in multidisciplinary problem-solving for social impact.

## Core Thematic Areas

- Technologies for Humanitarian Action
- Medical Technologies
- Science and Technology for Disaster Risk Reduction
- Technologies for Sustainable Access to Energy
- ICT for Development
- Technologies for Sustainable Habitat and Cities

## Why YOU Should Attend Tech4Dev 2016

- A unique **multidisciplinary** platform
