GP17 – KEY FEATURES

2017 Global Platform - Key Features

- **First Global Platform following adoption of Sendai Framework**
 - Take stock of progress in implementing the Sendai Framework for Disaster Risk Reduction
 - Identify early successes in the Framework’s implementation to guide countries’ action to meet the first target date of 2020 (alignment of national and local strategies to the Sendai Framework) and serve as solid foundation to meet its global targets by 2030.
- **Main outcome documents:**
 - Chair’s summary
 - Leaders Forum “High Level Communiqué”
 - Global Platform proceedings
- **Ensure alignment of the 2017 Global Platform** with the outcomes and deliberations of the 2016 Regional Platforms.
- **Contribute to and build coherence** with the deliberations of the 2017 session of the High Level Political Forum for Sustainable Development (June/July 2017 under the auspices of ECOSOC).

2017 Global Platform - Key Features (Cont'd)

- SRSB's Meeting with President Enrique Peña Nieto of México
 - Full commitment and support to GP17
 - Expected personal participation
 - Interest to push the economic losses reduction agenda
- Technical mission from the UN and Government of México to Cancún end April 2016 – Excellent facilities and arrangements in place to accommodate GP17
- Host Country Agreement discussed with Government of México. Technical Annex being reviewed based on the outcomes of the first technical mission.
- GP17's budget: Appreciate México's contribution of more than half the cost (in kind, for host country costs) – Expected financial gap and look forward to support from partners and donors
