TSUNAMI
AWARENESS
5 NOVEMBER
2016
DAY

Commemoration Ceremony of the World Tsunami Awareness Day
at Closing Ceremony
09.00-10.30 hours, Saturday, 5th November 2016

| | |
|---------|--|
| Concept | <p>Tsunamis are rare. But they can be extremely deadly. In the past 100 years, more than 260,000 people have perished in 58 separate tsunamis. At an average of 4,600 deaths per disaster, the toll has surpassed any other natural hazard. Tsunamis know no borders, making international cooperation key for deeper political and public understanding of risk reduction measures.</p> <p>The UN General Assembly has designated 5 November as World Tsunami Awareness Day and called on countries around the globe to mark it. The focus of the World Tsunami Awareness Day in 2016 is “Live to Tell” to promote effective education and evacuation drills.</p> <p>The UN General Assembly has tasked the UN office for Disaster Risk Reduction (UNISDR) with facilitating the observance of World Tsunami Awareness Day in collaboration with the rest of the United Nations system.</p> <p>Together with the high level representatives, we mark the World Tsunami Awareness Day for the first time on 5th November at the Closing Ceremony of the 7th AMCDRR.</p> <p>On World Tsunami Awareness Day, we have to remind ourselves how important it is to reduce existing levels of risk and to avoid creating risk in the</p> |
