Do you have a national database for collecting disaster losses?
Yes

How do you define ‘disaster’ in your country?

Natural disaster refers to the natural phenomenon which brings harm to human or damage to human living environment. It including drought, flood, typhoon, hail, snow, low temperature, cold, waterlogging, flood, typhoon, tornado, hail, frost, rain, snow, sleet, fog, wind, ice, haze, haze, floating dust, blowing sand and dust storms, lightning, thunderstorms, lightning and other weather disasters; earthquake, volcano mountain collapse, landslide and debris flow disasters; marine storm tide and tsunami etc. geological disasters; grassland fires and major forest biological disaster.

Do you collect disaster loss data disaggregated by event?
Yes

Do you collect disaster loss data associated with a hazard type?
Yes

Do you collect disaster loss data disaggregated by location?
Yes

Do you collect disaster loss data at all scales, including small-scale disasters?
Yes

Does the collected disaster loss data cover the entire period 2005-2015?
Yes

By which hazard type do you disaggregate?
Geophysical
Meteorological
Hydrological
Climatological
Biological

Which tool or methodology are you using to collect and store your loss data?
online system

Are you using UN DesInventar methodology?
No

Is there an institution in charge of collecting, consolidating and storing loss data?
Yes

If yes, please specify:
National nature disaster reduction center of CHINA

Is your loss data publically available?
Yes
Global target A: Substantially reduce global disaster mortality by 2030

The scope of disaster in this and subsequent targets is defined in paragraph 15 of the Sendai Framework for Disaster Risk Reduction 2015-2030 and applies to small-scale and large-scale, frequent and infrequent, sudden and slow-onset disasters caused by natural or man-made hazards, as well as related environmental, technological and biological hazards and risk.

Indicator A-2: Number of deaths attributed to disasters, per 100,000 population.

Do you collect number of deaths attributed to disasters?
Yes

The scope of disaster in this and subsequent targets is defined in paragraph 15 of the Sendai Framework for Disaster Risk Reduction 2015-2030 and applies to small-scale and large-scale, frequent and infrequent, sudden and slow-onset disasters caused by natural or man-made hazards, as well as related environmental, technological and biological hazards and risk.

Indicator A-2: Number of deaths attributed to disasters, per 100,000 population.

Do you collect number of deaths attributed to disasters disaggregated by event?
Yes

Do you collect number of deaths attributed to disasters associated with a hazard type?
Yes

Do you collect number of deaths attributed to disasters disaggregated by location?
Yes

Does the collected data cover the entire period 2005 – 2015?
Yes

Indicator B-3: Number of people whose damaged dwellings were attributed to disasters.

UNISDR can use the following sub-indicators to estimate number of people whose dwellings have been damaged attributed to disasters. This indicator will also be necessary for Calculation of C4

Do you collect number of dwellings that were damaged attributed to disasters
disaggregated by event?
Yes

Do you collect number of dwellings that were damaged attributed to disasters associated with a hazard type?
Yes

Do you collect number of dwellings that were damaged attributed to disasters disaggregated by location?
Yes

Do you collect number of dwellings that were damaged attributed to disasters at all scales?
Yes

Does the collected data cover the entire period 2005 – 2015?
Yes

Indicator B-4: Number of people whose destroyed dwellings were attributed to disasters.

Do you collect number of people whose dwellings were destroyed attributed to disasters?
Yes

Indicator B-4: Number of people whose destroyed dwellings were attributed to disasters.
Note: UNISDR can use the following sub-indicators to estimate number of people whose dwellings have been destroyed attributed to disasters. This indicator will also be necessary for Calculation of C4

Do you collect number of dwellings that were destroyed attributed to disasters?
Yes

Indicator B-4: Number of people whose destroyed dwellings were attributed to disasters.

Do you collect number of people whose dwellings were destroyed attributed to disasters disaggregated by event?
Yes

Do you collect number of people whose dwellings were destroyed attributed to disasters associated with a hazard type?
Yes

Do you collect number of people whose dwellings were destroyed attributed to disasters disaggregated by location?
Yes

Do you collect number of people whose dwellings were destroyed attributed to disasters disaggregated by age?
No

Do you collect number of people whose dwellings were destroyed attributed to
disasters disaggregated by sex?
No

Do you collect number of people whose dwellings were destroyed attributed to disasters disaggregated by disability?
No

Do you collect number of people whose dwellings were destroyed attributed to disasters disaggregated by income?
No

Does the collected data cover the entire period 2005 - 2015?
Yes

Indicator B-4: Number of people whose destroyed dwellings were attributed to disasters.

Note: UNISDR can use the following sub-indicators to estimate number of people whose dwellings have been destroyed attributed to disasters. This indicator will also be necessary for Calculation of C4

Do you collect number of dwellings that were destroyed attributed to disasters disaggregated by event?
Yes

Do you collect number of dwellings that were destroyed attributed to disasters associated with a hazard type?
Yes
Do you collect number of dwellings that were destroyed attributed to disasters disaggregated by location?
Yes

Do you collect number of dwellings that were destroyed attributed to disasters at all scales?
Yes

Does the collected data cover the entire period 2005–2015?
Yes

Indicator B-5: Number of people whose livelihoods were disrupted or destroyed, attributed to disasters.

Do you collect number of people whose livelihoods were disrupted or destroyed, attributed to disasters?
Yes

Indicator B-5: Number of people whose livelihoods were disrupted or destroyed, attributed to disasters.

UNISDR can use the following sub-indicators to estimate number of people whose livelihoods were disrupted or destroyed, attributed to disasters. This indicator will also be necessary for Calculation of C2

Do you collect physical damage to the agricultural sector attributed to disasters?
Yes
Indicator B-5: Number of people whose livelihoods were disrupted or destroyed, attributed to disasters.

Do you collect number of people whose livelihoods were disrupted or destroyed, attributed to disasters disaggregated by event?

Yes

Do you collect number of people whose livelihoods were disrupted or destroyed, attributed to disasters associated with a hazard type?

Yes

Do you collect number of people whose livelihoods were disrupted or destroyed, attributed to disasters disaggregated by location?

Yes

Do you collect number of people whose livelihoods were disrupted or destroyed, attributed to disasters disaggregated by age?

No

Do you collect number of people whose livelihoods were disrupted or destroyed, attributed to disasters disaggregated by sex?

No

Global target E: National and local DRR strategies by 2020

Indicator E-1: Number of countries that adopt and implement national disaster risk reduction strategies in line with the Sendai Framework for Disaster Risk Reduction 2015-2030.

Do you have a national DRR strategy?
Yes

Is your national DRR strategy adopted?
Yes

Is your national DRR strategy implemented?
Yes

Does the DRR strategy have a clear time frame?
Yes

Note: The below elements from the Sendai Framework will provide evidence to the question if strategies are in line with the Sendai Framework.
Does the DRR strategy have clear targets?
Yes

Does the DRR strategy have indicators?
Yes

Does the DRR strategy integrate DRR within and across sectors?
Yes

Is the DRR strategy embedded within and across all sectors?
Yes

Does the DRR strategy promote policy coherence and compliance?
Yes

Does the DRR strategy define roles and responsibilities?
Yes

Does the DRR strategy prevent the creation of new risk?
Yes
Does the DRR strategy reduce existing risk?
Yes

Does the DRR strategy strengthen economic, social, health and environmental resilience?
Yes

Is the DRR strategy based on disaster risk assessment?
Yes

Does the DRR strategy have a mechanism for follow-up?
Yes

Indicator E-2: Percentage of local governments that adopt and implement local disaster risk reduction strategies in line with national strategies.

Information should be provided on the appropriate levels of government below the national level with responsibility for disaster risk reduction.

Which level of government do you consider as local? Please specify.
county

Indicator E-2: Percentage of local governments that adopt and implement local disaster risk reduction strategies in line with national strategies.

Information should be provided on the appropriate levels of government below the national level with responsibility for disaster risk reduction.
Do you have local DRR strategies led by local government?

Yes

Indicator E-2: Percentage of local governments that adopt and implement local disaster risk reduction strategies in line with national strategies.

Information should be provided on the appropriate levels of government below the national level with responsibility for disaster risk reduction.

What percentage of your local governments has local DRR strategies? Please specify.

80%

Are your local DRR strategies adopted?

Yes

Are your local DRR strategies aligned to your national DRR strategy?

Yes

Indicator E-2: Percentage of local governments that adopt and implement local disaster risk reduction strategies in line with national strategies.

Information should be provided on the appropriate levels of government below the national level with responsibility for disaster risk reduction.
risk reduction strategies in line with national strategies.

Information should be provided on the appropriate levels of government below the national level with responsibility for disaster risk reduction.

Are your local DRR strategies implemented?

Yes
Global target F: Substantially enhance international cooperation to developing countries

Indicator F-1: Total official international support, (official development assistance (ODA) plus other official flows), for national disaster risk reduction actions.

Indicator F-2: Total official international support (ODA plus other official flows) for national disaster risk reduction actions provided by multilateral agencies.

Indicator F-3: Total official international support (ODA plus other official flows) for national disaster risk reduction actions provided bilaterally.

Reporting of the provision or receipt of international cooperation for disaster risk reduction shall be done in accordance with the modalities applied in respective countries. Recipient countries are encouraged to provide information on the estimated amount of national disaster risk reduction expenditure.

Do you collect data on total official ODA support for national DRR actions?

Yes

Indicator F-1: Total official international support, (official development assistance (ODA) plus other official flows), for national disaster risk reduction actions.

Indicator F-2: Total official international support (ODA plus other official flows) for national disaster risk reduction actions provided by multilateral agencies.

Indicator F-3: Total official international support (ODA plus other official flows) for national disaster risk reduction actions provided bilaterally.

Reporting of the provision or receipt of international cooperation for disaster risk reduction shall be done in accordance with the modalities applied in respective countries. Recipient countries are encouraged to provide information on the estimated amount of national disaster risk reduction expenditure.

Do you collect data on total other official flows in support of national DRR actions?

Yes
Indicator F-1: Total official international support, (official development assistance (ODA) plus other official flows), for national disaster risk reduction actions.

Indicator F-2: Total official international support (ODA plus other official flows) for national disaster risk reduction actions provided by multilateral agencies.

Indicator F-3: Total official international support (ODA plus other official flows) for national disaster risk reduction actions provided bilaterally.

Reporting of the provision or receipt of international cooperation for disaster risk reduction shall be done in accordance with the modalities applied in respective countries. Recipient countries are encouraged to provide information on the estimated amount of national disaster risk reduction expenditure.

Do you collect data on support from multilateral agencies?

Yes

Do you collect data on support from bilateral sources?

No

Do you collect data on support from multilateral agencies?

Yes
Do you collect data on support from bilateral sources?

No

Indicator F-4: Total official international support (ODA plus other official flows) for the transfer and exchange of disaster risk reduction-related technology.

Do you collect data on total official ODA support for the transfer and exchange of DRR related technology?

Yes

Indicator F-4: Total official international support (ODA plus other official flows) for the transfer and exchange of disaster risk reduction-related technology.

Do you collect data on total other official flows in support for the transfer and exchange of DRR related technology?

Yes

Indicator F-4: Total official international support (ODA plus other official flows) for the transfer and exchange of disaster risk reduction-related technology.

Does the collected data cover the entire period 2005 - 2015?

No

Are you planning to collect historic data on total official international support for the transfer and exchange of DRR related technology for the entire period?

Yes
What resources do you need to collect data on data coverage 2005 - 2015?

Capacity

Financial

Technology transfer

F-5: Number of international, regional and bilateral programmes and initiatives for the transfer and exchange of science, technology and innovation in disaster risk reduction for developing countries.

Do you collect data on number of programmes and initiatives for the transfer and exchange of science, technology and innovation in disaster risk reduction for developing countries?

Yes

F-5: Number of international, regional and bilateral programmes and initiatives for the transfer and exchange of science, technology and innovation in disaster risk reduction for developing countries.

Does the collected data cover the entire period 2005 - 2015?

No

F-5: Number of international, regional and bilateral programmes and initiatives for the transfer and exchange of science, technology and innovation in disaster risk reduction for developing countries.

Do you collect data on number of international programmes and initiatives?

No
Do you collect data on number of regional programmes and initiatives?
No

Do you collect data on number of bilateral programmes and initiatives?
No

The scope of disaster in this and subsequent targets is defined in paragraph 15 of the Sendai Framework for Disaster Risk Reduction 2015-2030 and applies to small-scale and large-scale, frequent and infrequent, sudden and slow-onset disasters caused by natural or man-made hazards, as well as related environmental, technological and biological hazards and risk.

F-5: Number of international, regional and bilateral programmes and initiatives for the transfer and exchange of science, technology and innovation in disaster risk reduction for developing countries.

Are you planning to collect historic data on total official international support for the transfer and exchange of DRR related technology for the entire period?
Yes

What resources do you need to collect data on data coverage 2005 - 2015?
Capacity

Indicator F-6: Total official international support (ODA plus other official flows) for disaster risk reduction capacity-building.

Do you collect data on total official ODA support for disaster risk reduction capacity building?
No
Indicator F-6: Total official international support (ODA plus other official flows) for disaster risk reduction capacity-building.

Do you collect data on total other official flows in support of disaster risk reduction capacity building?

No

Does the collected data cover the entire period 2005 - 2015?

No

When do you plan to start collecting data on total official ODA support for disaster risk reduction capacity building?

uncertain

What resources do you need to collect data on total official ODA support for disaster risk reduction capacity building?

Capacity

Financial

Technology transfer
When do you plan to start collecting data on total other official support in support of disaster risk reduction capacity building?
uncertain

What resources do you need to collect data on total other official flows in support of disaster risk reduction capacity building?
Capacity
Financial
Technology transfer

Indicator F-6: Total official international support (ODA plus other official flows) for disaster risk reduction capacity-building.

Are you planning to collect historic data on total official international support for disaster risk reduction capacity building?
No

What resources do you need to collect data on data coverage 2005 - 2015?
Capacity
Financial
Technology transfer

Indicator F-7: Number of international, regional and bilateral programmes and initiatives for disaster risk reduction-related capacity-building in developing countries.

Do you collect data on number of programmes and initiatives for DRR related
capacity building in developing countries?

No

Indicator F-7: Number of international, regional and bilateral programmes and initiatives for disaster risk reduction-related capacity-building in developing countries.

Does the collected data cover the entire period 2005 - 2015?

No

Indicator F-7: Number of international, regional and bilateral programmes and initiatives for disaster risk reduction-related capacity-building in developing countries.

When do you plan to start collecting data on number of programmes and initiatives for DRR related capacity building in developing countries?

uncertain

What resources do you need to collect data on number of programmes and initiatives for DRR related capacity building in developing countries?

Capacity

Financial

Technology transfer

Indicator F-7: Number of international, regional and bilateral programmes and initiatives for disaster risk reduction-related capacity-building in developing countries.

Are you planning to collect historic data on number of international, regional and bilateral programmes and initiatives for DRR related capacity building in developing countries?

No
What resources do you need to collect data on data coverage 2005 - 2015?

Capacity

Financial

Technology transfer

Indicator F-8: Number of developing countries supported by international, regional and bilateral initiatives to strengthen their disaster risk reduction-related statistical capacity.

Do you collect data on initiatives to strengthen your DRR related statistical capacity?

Yes

Does the collected data cover the entire period 2005 - 2015?

No

Indicator F-8: Number of developing countries supported by international, regional and bilateral initiatives to strengthen their disaster risk reduction-related statistical capacity.

Do you collect data on number of international programmes and initiatives to strengthen your DRR related statistical capacity?

No

Do you collect data on number of regional programmes and initiatives to strengthen your DRR related statistical capacity?
Do you collect data on number of bilateral programmes and initiatives to strengthen your DRR related statistical capacity?

No

Indicator F-8: Number of developing countries supported by international, regional and bilateral initiatives to strengthen their disaster risk reduction-related statistical capacity.

Are you planning to collect historic data on initiatives to strengthen your DRR related statistical capacity?

Yes

What resources do you need to collect data on data coverage 2005 - 2015?

Capacity

Financial

Technology transfer
## Global target G: Availability of multi-hazard early warning systems and disaster risk information

Indicator G-2: Number of countries that have multi-hazard monitoring and forecasting systems.

What are the major hazards affecting your country from the list? Choose all that apply.

- Geophysical
- Meteorological
- Hydrological
- Climatological

Indicator G-2: Number of countries that have multi-hazard monitoring and forecasting systems.

Do you have a multi-hazard monitoring and forecasting systems?

Yes

Indicator G-2: Number of countries that have multi-hazard monitoring and forecasting systems.

Which major hazards from the list are considered in your multi-hazard monitoring and forecasting systems?

- Geophysical
- Meteorological
- Hydrological
- Climatological
Indicator G-2: Number of countries that have multi-hazard monitoring and forecasting systems.

Do your monitoring and forecasting systems cover all geographical areas affected by one or more of the major hazards?

No

Indicator G-2: Number of countries that have multi-hazard monitoring and forecasting systems.

When do you plan to consider all major hazards?

now

What resources do you need to coverage of all geographical areas affected by one or more of the major hazards in multi-hazard monitoring and forecasting systems?

Capacity

Financial

Technology transfer

Indicator G-3: Number of people per 100,000 that are covered by early warning information through local governments or through national dissemination mechanisms.

Do you collect data on the number of people who have access to early warning information through local governments?

Yes

Indicator G-3: Number of people per 100,000 that are covered by early warning
information through local governments or through national dissemination mechanisms.

Do you collect data on number of people who have access to early warning information through national dissemination mechanisms?

Yes

Indicator G-3: Number of people per 100,000 that are covered by early warning information through local governments or through national dissemination mechanisms.

Are all people in areas prone to major hazards covered by early warning information?

No

Indicator G-3: Number of people per 100,000 that are covered by early warning information through local governments or through national dissemination mechanisms.

When do you plan to cover all people in areas prone to major hazards by early warning information?

now

What resources do you need to coverage of people in areas prone to major hazards by early warning information?

Capacity

Financial

Technology transfer

Indicator G-4: Percentage of local governments having a plan to act on early warnings.

Do you collect data on percentage of local governments having a plan to act on
early warnings?
Yes

Indicator G-4: Percentage of local governments having a plan to act on early warnings.

Do local governments in your country have plans to act on early warnings?
Yes

Indicator G-4: Percentage of local governments having a plan to act on early warnings.

Please specify which major hazards from the list are covered by the plans to act on early warning systems.
Geophysical
Meteorological
Hydrological
Climatological
Technological

Indicator G-4: Percentage of local governments having a plan to act on early warnings.

Do the plans to act on early warnings take into account the potential interrelated effects of multiple hazards?
Yes

Indicator G-5: Number of countries that have accessible, understandable, usable and relevant disaster risk information and assessment available to the people at the national and local levels.

Do you have disaster risk information and assessment?
Yes

Indicator G-5: Number of countries that have accessible, understandable, usable and relevant disaster risk information and assessment available to the people at the national and local levels.

Which major hazards from the list are considered in your risk information and assessment?

Geophysical
Meteorological
Hydrological
Climatological
Technological

Is risk information and assessment accessible, understandable and usable by the people?

Yes

Indicator G-5: Number of countries that have accessible, understandable, usable and relevant disaster risk information and assessment available to the people at the national and local levels.

Is risk information and assessment available to people at national and local level?

Yes
Do you collect data on percentage of population exposed or at risk from disasters protected through pre-emptive evacuation following early warning?

Yes

Do you collect number of people evacuated attributed to disasters?

Yes
