## Sendai Framework Data Readiness Review - Report - Mauritania

Generic
Do you have a national database for collecting disaster losses?
No
When do you plan to start collecting data attributed to disasters?
at 2018
What resources do you need to collect data on disasters?
Capacity
Financial
Technology transfer
Global target A: Substantially reduce global disaster mortality by 2030
The scope of disaster in this and subsequent targets is defined in paragraph 15 of the Sendai Framework for Disaster Risk Reduction 2015-2030 and applies to small-scale and large-scale, frequent and infrequent, sudden and slow-onset disasters caused by natural or man-made hazards, as well as related environmental, technological and biological hazards and risk.
Indicator A-2: Number of deaths attributed to disasters, per 100,000 population.
Do you collect number of deaths attributed to disasters?
Yes

The scope of disaster in this and subsequent targets is defined in paragraph 15 of the Sendai Framework for Disaster Risk Reduction 2015-2030 and applies to small-scale and large-scale, frequent and infrequent, sudden and slow-onset disasters caused by natural or man-made hazards, as well as related environmental,

technological and biological hazards and risk.
Indicator A-2: Number of deaths attributed to disasters, per 100,000 population.
Do you collect number of deaths attributed to disasters disaggregated by event?
Yes
Do you collect number of deaths attributed to disasters associated with a hazard type?
Yes
Do you collect number of deaths attributed to disasters disaggregated by location?
Yes
Do you collect number of deaths attributed to disasters disaggregated by age?
Yes
Do you collect number of deaths attributed to disasters disaggregated by sex?
Yes
Do you collect number of deaths attributed to disasters disaggregated by disability?
Yes
Do you collect number of deaths attributed to disasters disaggregated by income?
Yes
Does the collected data cover the entire period 2005 - 2015?
Yes

The scope of disaster in this and subsequent targets is defined in paragraph 15 of the Sendai Framework for Disaster Risk Reduction 2015-2030 and applies to small-scale and large-scale, frequent and infrequent, sudden and slow-onset disasters caused by natural or man-made hazards, as well as related environmental, technological and biological hazards and risk.

Do you collect number of missing persons attributed to disasters?
Yes
The scope of disaster in this and subsequent targets is defined in paragraph 15 of the Sendai Framework for Disaster Risk Reduction 2015-2030 and applies to small-scale and large-scale, frequent and infrequent, sudden and slow-onset disasters caused by natural or man-made hazards, as well as related environmental, technological and biological hazards and risk.
Indicator A-3: Number of missing persons attributed to disasters, per 100,000 population.
Do you collect number of missing persons attributed to disasters disaggregated by event?
Yes
Do you collect number of missing persons attributed to disasters associated with a hazard type?  No
Do you collect number of missing persons attributed to disasters disaggregated by location?  No
Do you collect number of missing persons attributed to disasters disaggregated by age? Yes
Do you collect number of missing persons attributed to disasters disaggregated by sex?  Yes
Do you collect number of missing persons attributed to disasters disaggregated by disability?
Do you collect number of missing persons attributed to disasters disaggregated by income?  Yes

Indicator A-3: Number of missing persons attributed to disasters, per 100,000 population.

Does the collected data cover the entire period 2005 – 2015?
No
Global target B: Substantially reduce the number of affected people globally by 2030
Indicator B-2: Number of injured or ill people attributed to disasters, per 100,000 population.
Do you collect number of injured or ill people attributed to disasters?
No
Indicator B-2: Number of injured or ill people attributed to disasters, per 100,000 population.
When do you plan to start collecting data on number of injured or ill people attributed to disasters?
2018
What resources do you need to collect data on number of injured or ill people attributed to disasters?
Capacity
Financial
Technology transfer
Indicator B-3: Number of people whose damaged dwellings were attributed to disasters.
Do you collect number of people whose dwellings were damaged attributed to disasters?
No
Global target C: Reduce direct disaster economic loss in relation to global GDP
Global target D: Substantially reduce disaster damage to critical infrastructure
Global target E: National and local DRR strategies by 2020

Global target F: Substantially enhance international cooperation to developing countries

Global target G: Availability of multi-hazard early warning systems and disaster risk information
