

10th edition

UN Geneva Séminaire Series

12-13 October - Palais des Nations

Reducing Disaster Risks to Achieve the Sustainable Development Goals

in partnership with the United Nations Office
for Disaster Risk Reduction (UNISDR)

Challenges: Identification of risks

- Understanding Disaster Risks
- Exposure and Vulnerability: reducing the socio-economic cost of disasters (Haïti and Chili case studies)
- The human costs of disasters: the slow-onset disasters, conflicts and population movement

Disaster Risk Management for Development

- The Sendai Framework: making the difference for poverty, health and resilience
- Building back better and safer: challenges and complexity of post-disaster recovery

Building Resilience, Reducing Vulnerability

- Investing in disaster risk reduction for resilience: a common interest
