

# TSUNAMI RESPONSE AND EARLY RECOVERY

## Search and Rescue

The Search and rescue phase can last for hours or days immediately following the event and requires the capacity for fast response in order to save lives in imminent danger.

## Relief and Early Recovery

Aid is delivered or provided at the community or local level affected have food, water and a temporary

shelter that can withstand rain, wind, and floods. By the end of this phase, citizens should be able to begin to resume their daily lives.
