

Objectives

- Present the Youth Stakeholder Engagement and the implementation of the Sendai Framework for Risk Reduction in the Arab Region.
- Present the process, status and main findings of the person and online youth-led and youth focused

Youth stakeholder group

- Stakeholder group constitutes the Reg the Global Children and Youth Stakeholder within the ISDRR.
- Stakeholder partnership is facilitated Major Group for Children and Youth.

Youth stakeholder group

- The Major Group system was used in the WCDRR and the Major Group of Children and Youth was then created.
- The group is open for any young persons or representatives of youth-led, focused

Youth stakeholder group

- The Arab Regional DRR group is facilitated by Focal points, whom are elected by the members. They facilitate communication with the working groups in other regions and the other regions, to collaborate and support each other.
- We are also working with the other working

Youth stakeholder group

- The work is focused on the following areas
 - **Policy & Advocacy** : Facilitate the participation of young people in existing stakeholder partnerships, platforms and mechanisms
 - **Youth Action** : Provide young people

Youth stakeholder group

- **Knowledge:** Provide youth a platform to create an evidence base for best practice implementation, monitoring, follow-up of sustainable development framework
- **Capacity building:** Facilitate capacity building processes and activities for young people

Youth stakeholder group :

- We are currently writing a Tor for the Arab stakeholder group and it will be finalized by the Platform. It is in line with the global Partnership for Resilient and Inclusive Growth.
- In the lead up to the regional platform we are conducting consultations in person and online. These consultations result in a mapping of youth actions, youth challenges and trends of SEDRR implementation.

Youth stakeholder group :

- We are contributing to the preparations of Global DRR, specifically the sessions on **Health and D**
- We are currently starting to engage some youth in our region in our Young Scientists Platform, as well as other science platform in the UN system.
- We are planning additional engagement for the platform. This constitutes:
