

## **Workshop on Making Cities Resilient: Towards developing local disaster risk reduction strategy**

**29-30 October 2019  
Dubai, United Arab Emirates**

### **Event Background and Introduction**

#### **Background**

The Government of Dubai has committed to making Dubai disaster resilient. On 2-3 September, the initial capacity building workshop was held in Dubai with multi-sectoral department participation. During this workshop, Dubai government officials were oriented with disaster risk reduction (DRR) concept including key terminologies, the linkage of DRR and climate change and sustainable development, the Sendai Framework for Disaster Risk Reduction, the Making Cities Resilient campaign and the 10 Essentials for making cities resilient. Moreover, the participants practiced using Disaster Resilience Scorecard for Cities in assessing the current progress in disaster resilience building in Dubai. This exercise continued post-workshop with the aim of using the Scorecard results as inputs to the development of DRR strategies.

#### **Workshop Objectives**

Follow-on with this commitment, the second workshop is planned to be held in Dubai with an aim to guide the development of an evidence based local DRR strategy that reflects the current local needs and gaps and is aligned with the global frameworks including the Sendai Framework for Disaster Risk Reduction, Paris Agreement, New Urban Agenda and Sustainable Development Goals. The workshop will also be an opportunity to review the state of play of Dubai in DRR, climate change adaptation and urban development and review the result of the Disaster Resilience Scorecard for Cities assessment for DRR strategic planning.

#### **Expected Outcome**

It is expected that the trained cadres of local government officials will be equipped with knowledge and skills in DRR strategic planning for the Government of Dubai to have DRR strategy in place for implementation before 2020.

#### **Targeted Audience**

25-30 Dubai city officials responsible for urban development and budget planning, disaster risk management, environment, transport, health, education, as well as key stakeholders from relevant Civil Society Organizations, private sector and academia.

#### **Organizers**

- Government of Dubai
- United Nations Office for Disaster Risk Reduction (UNDRR) Regional Office for Arab States (ROAS) & Global Education and Training Institute (GETI)

#### **Facilitators**

- Mr. Mohammed Fadi Jannan, Deputy Chief of Regional Office for Arab States, UNDRR
- Dr. Mutarika Pruksapong, Programme Officer, UNDRR Global Education and Training Institute (GETI)

#### **Workshop Language:**

English
