Conference Opportunity: Exhibit in the Marketplace

The Marketplace will be an opportunity for stakeholders to showcase approaches to disaster risk reduction in the Asia-Pacific and provides an opportunity for delegates and organisations to connect.

Objectives

The Marketplace will showcase and promote good practices in disaster risk management and should focus on areas concerning disaster risk reduction. Local, national or regional initiatives may be displayed. Organisations are encouraged to use visual materials, publications, posters and multimedia to showcase work.

Approach

Interested Governments, Non-Governmental Organisations, United Nations, private sector, media and other stakeholders are invited to express their interest in exhibiting at the Marketplace. The standard size for an exhibition booth is 3 x 3 meters. It includes:

- Octanorm partitioning with White Melamine panels
- Digital print fascia sign
- 2 x track spotlights, fixed to the inside of the front fascia
- 1 x 4-way power board with connectivity to 4amp power (Australian standard sockets)

Custom booth sizes are possible, depending on availability of space. Please outline requirements when applying.

Additional information

Exhibitors will be provided the space and help setting up exhibition booths. Cost of banners, transportation and shipping will need to be met by applicants. All display materials and audio-visual equipment will be the responsibility of the respective organisations, in consultation with the venue. An exhibitor pack will be provided once applications are confirmed along with quotes for additional equipment if required.

Selection Process

Applications will be reviewed by the Secretariat. Every effort will be made to ensure a variety of topics and exhibitors are showcased.

Apply for opportunities to get involved here

Applications for all opportunities close 11.59pm (AEDT) on 15 March 2020. Applicants will be advised if successful within four weeks from the close of applications.
