ASIA-PACIFIC MINISTERIAL CONFERENCE ON
Disaster Risk Reduction
2020

Conference Opportunity: Partner Event (Side Events)

Want to engage with the community in a meaningful, purposeful discussion about inspiring change to reduce risk to disasters?

Host a Partner Event at the APMCDRR 2020

Approach

Partner events represent the main platform for partners to organize substantive discussions beyond the conference's main sessions. Each event will last 60 minutes and run parallel to the main sessions of the conference.

Your event should connect to the 2020 APMCDRR theme of "*Making a change: Accelerating the transformation to risk-informed development. Enabling local and inclusive disaster resilience*".

Selection Process

The Secretariat will assess expressions of interest and advise successful applicants. Every effort will be made to ensure a variety of topics are presented. As there are limited slots for Partner Events, applicants may be requested to merge their events to enable maximum content coverage.

Reporting and Outcomes

Following the Partner Event, the organiser will submit a 300-word outcome summary to the Secretariat. The outcomes of the Partner Events will be reflected in the proceedings of the Conference.

Apply for opportunities to get involved here

Applications for all opportunities close 11.59pm (AEDT) on 15 March 2020. Applicants will be advised if successful within four weeks from the close of applications.
