

IN PARTNERSHIP WITH:

2ND INTERNATIONAL SYMPOSIUM ON

DISASTER RESILIENCE & SUSTAINABLE DEVELOPMENT

Transforming Education for Sustainability

24-25 JUNE 2021

AIT Conference Center, Thailand (in-person venue) & Virtual Participation

Call for PAPERS

THEMES

DISASTER RISK REDUCTION IN HIGHER EDUCATION

PUBLIC HEALTH EMERGENCY **AND COVID-19 RISK**

TECHNOLOGY, INNOVATION AND DISASTER RISK REDUCTION

MULTI-HAZARD RISK ASSESSMENT AND GOVERNANCE

> **CRITICAL INFRASTRUCTURE** RESILIENCE

VULNERABILITY, RESILIENCE AND SUSTAINABLE DEVELOPMENT

ABOUT THE SYMPOSIUM

The short-term consequences of climate change and its impending risk has catastrophic and wide-ranging implications to society. While the world is preparing to mitigate the effects of climate change and adapt for a safer future, the twenty-first century faced the unprecedented impact of a biological disaster. With the concerted efforts of global communities, the risk of the pandemic seems to be fading. The Sendai Framework for Disaster Risk Reduction (SFDRR) 2015-2030 calls for dedicated actions to tackle disaster risk drivers including the pandemic. The SFDRR Framework also emphasizes to increase awareness on disaster risk reduction (DRR) and resilience building measures. The uniqueness of DRR and sustainable development educators in Asia is a vital need to develop cross-cutting education system particularly in vulnerable Asia-pacific region.

The "2nd International Symposium on Disaster Resilience and Sustainable Development" will serve as a platform to bring together discussions on various dimensions of higher education systems in the Asia-Pacific region with emphasis on Disaster Risk Reduction and Sustainable Development. Furthermore, it will focus on various dimensions of existing and future risk scenarios and concerned efforts of the scientific communities to find new adaptation methods.

This symposium will provide an opportunity to corroborate and share country-wise experiences on the global challenges. Moreover, scientists, practitioners, and other valued participants will share their innovation and technology-driven solutions undertaken for mitigation efforts. The programme will include keynote speeches, panel discussions, technical sessions, poster presentations and an academic exhibition.

This 2-day event is organized by the Asian Institute of Technology (AIT), Thailand. It will be a hybrid event of both inperson and virtual participation on the 24th to the 25th of June 2021. It is one of the initiatives of ProSPER.Net project: "Disaster Education for integrating SFDRR and SDG in Asia" lead by AIT, along with partner universities in the Asia-Pacific Region.

Delegates/ Participants	In-person		Virtual	
	Early Bird	Regular	Early Bird	Regular
Faculty/ Professionals/ Practitioners/ Attendees (w/o presentations)	USD 100 (THB 3,000)	USD 150 (THB 4,500)	USD 70 (THB 2,000)	USD 100 (THB 3,000)
Students	USD 70 (THB 2,000)	USD 100 (THB 3,000)	USD 50 (THB 1,500)	USD 70 (THB 2,000)
