HOW DO FIRES START?

Firefighters sometimes say that the three main causes of fires in the home are men, women and children!

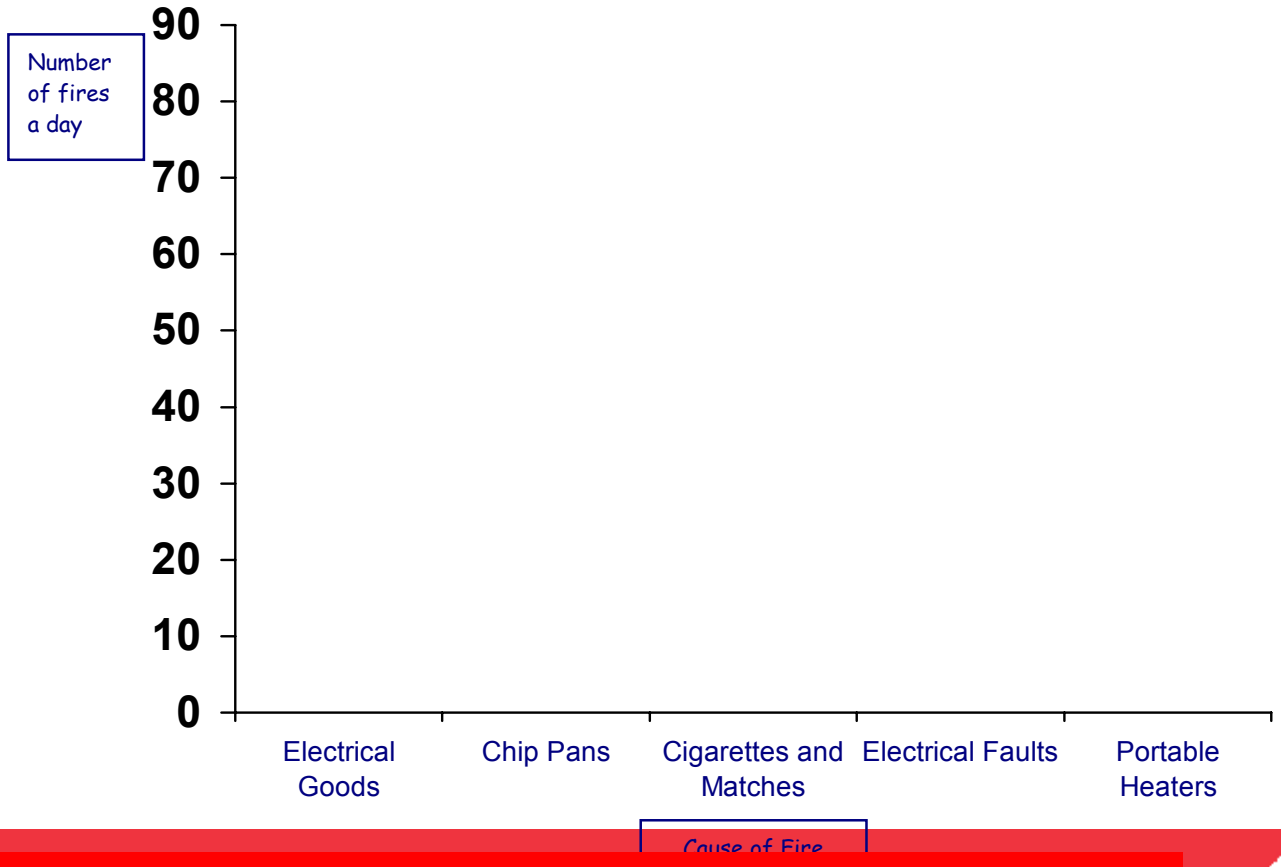

This is because a lot of fires in the home start due to people being careless.

Main causes of fire in the home

Causes of fire	Number of fires a day
Electrical Goods	26
Chip Pans	44
Cigarettes and Matches	27
Electrical Faults	77
Portable heaters	9

BE A FIRE DETECTIVE

Match up the causes of fire with the acts of carelessness below. The first one has been done for you.

English
En2 Reading
1d, 2d

CAUSE OF FIRE	ACT OF CARELESSNESS
 Electrical Goods and Faults	Leaving a box of them around for children to play with
 Chip Pan and Hot Oil Pans	Putting wet pieces of potato into this
	Putting clothes in front of this to dry
 Cigarettes and Matches	Using a CD player, playstation and hairdryer all plugged into one socket.
	Emptying an ashtray into a waste paper bin
 Portable Heaters	Leaving the TV and video on standby at night

BE A FIRE DETECTIVE AT HOME!

FIRE CAN KILL - YOU CAN STOP ONE

YOUR FIRE ACTION PLAN

Some fires in the home would not happen if everyone had a Fire Action Plan.

Making a Fire Action Plan also makes sure that you and everyone at home would know how to get out safely if there was a fire.

CHECK			

English
En2 Reading
1b, 1c, 1d

Draw a picture to show the different things you should do if you are trapped in a room and it is not safe to go out.

Roll out of bed, keep low and crawl to the door.	Check the door with the back of your hand. If it is hot, do NOT open the door.
Block the gap at the bottom of the door to stop smoke getting into the room.	Open the window and shout for help. Hang a sheet or clothing out.
If there is a phone in the room or you have a mobile, dial 999.	Wait by the window, keeping low.

Smoke detectors are very important to make our homes safe. We need to take care of our smoke detectors to make sure they work properly.

Write all the information you know about looking after smoke detectors under each heading.
