

About the One Health Concept

The One Health concept promotes an integrative approach to public health, reflecting the interconnectedness of a larger ecological system. It is a worldwide strategy for expanding interdisciplinary collaborations and communications in all aspects of healthcare for humans, animals and the environment. The synergy achieved will advance health care for the 21st century and beyond by accelerating biomedical research discoveries, enhancing public health efficacy, improving medical education and clinical care, and ensuring food safety and security with innovative and sustainable agriculture. Thus, following the One Health concept results in a more resilient, safer world for all.

Integrative components of One Health are:

- Human Health
- Animal Health
- Environmental Health
- Food Safety & Security
- Agriculture

2nd GRF Davos One Health Summit 2013

17-20 November 2013
Davos, Switzerland

Call for Abstracts

Topics to be addressed:

-  Public Health
-  Diseases
-  Environment
-  Food & Agriculture
-  Global Change & Sustainable Development

Organized by:

Scope of the Conference

The 2nd GRF One Health Summit 2013 will further explore, advance and agree on the need for a global integrative risk management approach for One Health. Furthermore, the conference will identify ways to achieve added value by multi-sectoral and multi-stakeholder cooperation and promote enhanced public-private partnership models. The findings of the conference will be used for advocacy, recommendations on organisational changes and stimulate a more efficient collaboration between stakeholders.

Who should attend?

Scientists from different disciplines, professional experts and practitioners, policy and decision makers, representatives from IGOs, NGOs and the private sector are encouraged to contribute and participate in the conference.

Venue

The 2nd GRF One Health Summit 2013 will be held in the Davos Congress Centre in Davos, Switzerland located in the beautiful Swiss Alps.

Call for Abstracts

The short abstracts, comprising a maximum of 300 words, should include the goals, the methods and the findings of the paper to be presented or the session to be organized. Abstracts can be submitted for the following contribution types:

- Oral presentation
- Poster presentation
- Session

Submission

Submit your abstract by 31 May 2013 online at <http://onehealth.grforum.org>

Review Process

The submitted abstracts will undergo a review process led by the One Health Scientific Advisory Committee. The review will be based on the following criteria:

- Quality of content
- Significance for practice
- Originality & innovation
- Relevance for the One Health approach
- Presentation and formal appearance

Language

The official conference language is English.
