Community Participation

Community Participation

● The community center approach: all the project cycle in shelter involving local community (*targetted beneficiaries*).

● Involvement of the community creating higher sense of belonging, protecting human dignity of the beneficiaries and also useful as one of *PSP tools*.

Commitment and Advocation

- Strong commitment come from PMI at all level and communities to improve *the quality of sheltering* for affected peoples.
- Advocate to all stakeholder from the grass root level (community) until the high level of the government *to ensure* the activity running appropriate.

Trained Volunteer and Proper Resources

- PMI mobilized volunteers from outside the province who has the expert in T-Shelter *to train the local volunteers* and facilitate the community to build safe house.

- PMI gain the permit to utilize the meranti wood which one of the best quality woods. .

Lessons Learned

- Temporary Housing programme has ***unique opportunity*** to reducing vulnerability, but need a lot of ***resources, well skilled experties and competencies.***
- Empowering communities ***to lead theirs recovery*** running well but takes time and resources.
- Communities members actively involve to the whole recovery process through spirit of ***“Mutual Benefit (Gotong Royong)”*** communal work.
- Good ***relationship and partnership*** with community and local government are starting point for sustainability of recovery programme.

Challenges & Way forward

- Ensuring beneficiaries *communication and participation*
- Fitting beneficiaries expectation into greater results by *theirs initiatives, capacities and resources.*
- Maintaining quality, *transparancy and accountability*
- Building a *better, stronger and more effective* PMI Organization Development.
