INSTANT SHELTER

RUGGED • RELIABLE
INSTANT SHELTER

RUGGED. VERSATILE. COMPLETE.

Immediate Assessment and Response

- Immediate Response on the Ground
 - Faster and cheaper to deploy compared to trailers
 - Much more functional than simple tents
 - All-in-one, fully autonomous solution
 - Parachute/airdrop, car, ATV deployment
- Preserves community resilience
 - Central meeting place and communications
 - Psychological relief

Life Cube Genesis

- Background:
 - Rapid reaction response to natural disasters, first responder scenarios and military excursions is vital to a successful mission outcome
- Problem:
 - In the 21st century, we are still responding to emergency shelter and EOC needs inefficiently
- Solution:
 - **The Life Cube**

Rapid Deployment Shelter Products

- Life Cube Command and Control & Temporary Tactical Troop Shelter
 - Arrives in 1.5m cube shipping container
 - Shipping container unfolds to create only integrated hard-surface floor in the market
 - 3 door design allows units to be interoperable creating multiple room live/work stations
 - Airframe canopy inflates with included blower in 5 min.
 - Survival equipment prepositioned inside the shelter

The Life Cube Solution

Post-Disaster State:

- ☑ Structures destroyed
- ☑ Communication down
- ☑ Exposure to the elements
- ☑ No food, water or ice
- ☑ Urgent medical needs
- ☑ Electricity unreliable
- ☑ Supply Channels Inhibited

The Life Cube Solution:

- Insulated canopy w/ hard surface floor
- Radio and Satellite Phone Built-In
- Integrated propane heat source
- MRE and Water Rations Included
- Hygienic Quarters w/ First Aid
- 12v Battery w/ 110/220 power & solar charger
- All-in-one simplifies supply logistics

Rapid Response Shelter Applications

- Emergency:
 - Search & Rescue, Law Enforcement, Emergency Medical Response, Emergency Operations Center
- Commercial:
 - Camp Operation, Relief Sheltering, Event Support, Business Continuity EOC
- Military:
 - Special Operations, Forward Operating Command, Field Training Facilities, Observer/Controller Stations
- Consumer:
 - Family Preparedness

UN Requirement for Shelter

- Integrated, hard-surface floor eliminates need for tie-downs during moderate winds (~30 mph)
- Completely autonomous
- Meets & Exceeds ALL UN Shelter Requirements (see chart at left)
- 100% American-made

Deployment

Life Cube's innovative cube design makes it easy to transport and deploy with 'stopwatch' fast five minute set-up and fifteen minute breakdown, for lightning quick deployment and removal
