

Community
Practitioners
Platform
for Resilience

Goal

To enable **grassroots communities** affected by disaster, climate change to:

- **Demonstrate and teach** their resilience practices
- **Build alliances** with governments and development institutions

In order to strategically influence policies and programs so that they advance pro-poor development.

Community
Practitioners
Platform
for Resilience

Key Principles

1. **Advocacy and partnering** with local and national governments and multilateral agencies.

2. **Networking** to aggregate good practices and lessons for engagement with governments and scaling up

Community
Practitioners
Platform
for Resilience

Action Agenda

- 1. Convene grassroots**
community experts in regional and national forums to share practices, lessons and identify advocacy priorities.

- 2. Promote interface between**
community Leaders and Local
