

General Assembly

Distr.: General
25 February 2011

Sixty-fifth session
Agenda item 20 (c)

Resolution adopted by the General Assembly

[on the report of the Second Committee (A/65/436/Add.3)]

65/158. International cooperation to reduce the impact of the El Niño phenomenon

The General Assembly,

Recalling its resolutions 52/200 of 18 December 1997, 53/185 of 15 December 1998, 54/220 of 22 December 1999, 55/197 of 20 December 2000, 56/194 of 21 December 2001, 57/255 of 20 December 2002, 59/232 of 22 December 2004, 61/199 of 20 December 2006 and 63/215 of 19 December 2008 and Economic and Social Council resolutions 1999/46 of 28 July 1999, 1999/63 of 30 July 1999 and 2000/33 of 28 July 2000,

Noting that the El Niño phenomenon has a recurring character and can lead to extensive natural hazards with the potential to seriously affect humankind,

Reaffirming the importance of developing strategies at the national, subregional, regional and international levels that aim to prevent, mitigate and repair the damage caused by natural disasters resulting from the El Niño phenomenon,

Noting that technological developments and international cooperation have enhanced the capabilities for the prediction of the El Niño phenomenon and thereby the potential for the preventive actions that may be taken to reduce its negative impacts,

Taking into account the Johannesburg Declaration on Sustainable Development¹ and the Plan of Implementation of the World Summit on Sustainable Development (“Johannesburg Plan of Implementation”),² in particular paragraph 37 (i) thereof,

Reaffirming the Hyogo Declaration³ and the Hyogo Framework for Action 2005–2015: Building the Resilience of Nations and Communities to Disasters,⁴

¹ *Report of the World Summit on Sustainable Development, Johannesburg, South Africa, 26 August–4 September 2002* (United Nations publication, Sales No. E.03.II.A.1 and corrigendum), chap. I, resolution 1, annex.

² *Ibid.*, resolution 2, annex.

³ A/CONF.206/6 and Corr.1, chap. I, resolution 1.

⁴ *Ibid.*, resolution 2.

1. *Takes note* of the report of the Secretary-General on the implementation of the International Strategy for Disaster Reduction,⁵ in particular annex III to the report, entitled “International cooperation to reduce the impact of the El Niño phenomenon”, and calls upon the international community to make further efforts to assist countries affected by this phenomenon;

2. *Recognizes* the efforts made by the Governments of Ecuador and Spain, the World Meteorological Organization and the inter-agency secretariat of the International Strategy for Disaster Reduction to support the International Research Centre on El Niño at Guayaquil, Ecuador, and encourages them and other members of the international community to continue such contributions for the advancement of the Centre;

3. *Welcomes* the activities undertaken so far to strengthen the International Research Centre on El Niño, through collaboration with international monitoring centres, including the national oceanographic institutions, and efforts to enhance regional and international recognition of and support for the Centre and to develop tools for decision makers and Government authorities for reducing the impact of the El Niño phenomenon;

4. *Notes* the contribution of the International Research Centre on El Niño as a reference centre on climate services and climate-related disaster risk reduction, as well as in the area of climate research, including through the development of a new climatic database for El Niño/Southern Oscillation-sensitive countries, and encourages the sharing of best practices with climate centres located in other El Niño-affected regions;

5. *Recognizes* the technical and scientific support of the World Meteorological Organization in producing regionally coordinated monthly and seasonal forecasts, in particular its establishment of a consensus mechanism for the development of updates on El Niño/La Niña conditions, which receives contributions from several climate centres, including the International Research Centre on El Niño;

6. *Encourages*, in this regard, the World Meteorological Organization to continue to strengthen collaboration and the exchange of data and information with relevant institutions;

7. *Calls upon* the Secretary-General, the relevant United Nations organs, funds and programmes, in particular those taking part in the International Strategy for Disaster Reduction, and the international community to adopt, as appropriate, the measures necessary to further strengthen the International Research Centre on El Niño, and invites the international community to provide scientific, technical and financial assistance and cooperation for this purpose, as well as to strengthen, as appropriate, other centres devoted to the study of the El Niño phenomenon;

8. *Underlines* the importance of maintaining the El Niño/Southern Oscillation observation system, continuing research into extreme weather events, improving forecasting skills and developing appropriate policies for reducing the impact of the El Niño phenomenon and other extreme weather events, and emphasizes the need to further develop and strengthen these institutional capacities in all countries, in particular developing countries;

⁵ A/65/388.

9. *Requests* the Secretary-General to include in his report to the General Assembly at its sixty-seventh session on the implementation of the International Strategy for Disaster Reduction a section on the implementation of the present resolution.

*69th plenary meeting
20 December 2010*
