Tolve is a small community in Northern Basilicata Region exposed mainly to landslide and wildfire risks. We strongly believe that being ready is the better cure against disaster and in order to do so we encourage people participation to the preparedness process.

The Volunteers of the Gruppo Lucano have presented to me the goals of the UNISDR Campaign. I have decided, on behalf of our community, that underwriting the Campaign "Making Cities Resilient" is an important step in our policy towards disaster risk reduction. Therefore we are pleased to confirm our participation as "Participant City".

Sincerely Yours,

Dr. Rocco Viggiano
Mayor
