

## Appendix 1: Results Framework of the United Nations Plan of Action on DRR for Resilience

### Commitment

# 1

Strengthen system-wide coherence in support of the Sendai Framework and other agreements, through a risk-informed and integrated approach

#### Results

### 1.1

UN system policies, guidelines and inter-agency initiatives supporting the implementation of the Sendai Framework, and more broadly the 2030 Agenda for Sustainable Development, are risk-informed and contribute to reducing existing, and prevent future disaster and climate risk, and strengthen resilience.

#### Results

### 1.2

UN system has supported countries in monitoring the implementation of the Sendai Framework ensuring coherence with the monitoring frameworks of the Sustainable Development Goals, Paris Agreement, the New Urban Agenda, the Addis Ababa Action Plan and other international frameworks.

#### Output

### 1.1

Strengthened integration and linkages between the Sendai Framework and other international frameworks.

#### Output

### 1.2

Sendai Framework Monitor indicators feed into the monitoring systems of other international agreements.

#### Output Indicator

### 1.1

Number and implementation of UN system policies, guidelines and inter-agency initiatives that integrate and demonstrate linkages between the Sendai Framework global targets and priorities of action with other international frameworks.

#### Output Indicator

### 1.2

Number of common indicators used by countries in their reporting to the Sendai Framework Monitor and other international agreements.

# Commitment

## 2

Build UN system capacity to deliver coordinated, high-quality support to countries on disaster risk reduction

### Results

#### 2.1

UN system has intensified capacity to support countries to integrate disaster and climate resilience into national, local and sectoral development strategies and plans and /or to develop/update national and local DRR strategies/plans aligned with the Sendai Framework

### Output

#### 2.1

UN-supported countries in developing disaster and climate risk-informed national, sectoral and local development strategies and/or developing/updating their DRR strategies/plans.

### Output Indicator 2.1.a

Number of countries supported by UN entities to disaster and climate risk-inform cross-sectoral development strategies/plans at national, sub-national and/or sectoral level.

### Output Indicator 2.1.b

Number of countries that developed/updated with support from UN entities their national and/or local DRR strategies and plans aligned to the Sendai Framework.

### Results

#### 2.2

UN system has strengthened capacity to effectively support national and local communities in early warning, preparedness, response and recovery.

### Output

#### 2.2

UN system organizations and UNCTs have expertise or access to the expertise to support countries in strengthening early warning systems, and enhance national preparedness, response and recovery capacities.

### Output Indicator 2.2.a

UN system organizations and UNCTs have expertise or access to expertise to support countries in strengthening early warning systems.

### Output Indicator 2.2.b

Number of countries with updated frameworks for preparedness and/or early/anticipatory action

### Output Indicator 2.2.c

Percentage of Recovery and Reconstruction Frameworks developed and implemented with UN support which incorporate DRR and/or Build Back Better elements

### Results

#### 2.3

Risk and climate information inform UN Sustainable Development Cooperation Frameworks.

### Output

#### 2.3

UNCTs have expertise or access to expertise to use available disaster risk and climate information in developing, revising and implementing UN Sustainable Development Cooperation Frameworks and related UN development partnership frameworks.

### Output Indicator 2.3

Number of UN Sustainable Development Cooperation Frameworks that have applied climate and risk information.

# Commitment

# 3

Disaster Risk Reduction remains a Strategic Priority for UN organizations

<p><b>Results 3.1</b></p> <p>UN entities integrate risk and resilience in their corporate policy and programming.</p>	<p><b>Results 3.2</b></p> <p>UN entities allocate resources to increase the level of commitment to DRR to support the implementation of the Sendai Framework.</p>	<p><b>Results 3.3</b></p> <p>UN entities have an advocacy and communications strategy on risk-informed sustainable development targeting a larger engagement of stakeholders in their sectoral programmes.</p>
<p><b>Output 3.1</b></p> <p>UN organizations' strategic frameworks and monitoring systems integrate disaster and climate risk reduction and resilience building to ensure that their contribution to Sustainable Development is risk-informed.</p>	<p><b>Output 3.2</b></p> <p>UN entities allocated increased resources in DRR activities.</p>	<p><b>Output 3.3</b></p> <p>Advocacy and outreach initiatives of UN organizations include DRR as a part of their overall corporate messaging on resilience building and the SDGs.</p>
<p><b>Output Indicator 3.1</b></p> <p>Number of UN entities reporting on disaster and climate risk and resilience building in their monitoring and evaluation systems.</p>	<p><b>Output Indicator 3.2</b></p> <p>Number of UN system staff that support disaster risk reduction activities.</p>	<p><b>Output Indicator 3.3</b></p> <p>Number of UN entities publishing flagship publications and corporate social media campaigns addressing DRR.</p>
